OJUSD Families,

It is truly an honor to be given the opportunity to serve as the Superintendent for the Oakdale Joint Unified School District. We have found ourselves navigating a new world and new technologies after COVID, and Oakdale High School has demonstrated tremendous “Grit” and resilience as evident in our continued successes and achievements. We annually publicize the previous school year’s achievements, which can be found on our OJUSD website (<https://www.ojUSD.org/district/achievements>). We will continue to strive for excellence, getting better every day, and embracing competition to help our students’ continued success after graduation.

OJUSD continues the development of instructional norms called IS4 (Instructional Strategies Supporting Student Success). This year, IS4 strategies will focus on “Cognitive Engagement,” in a multitude of research-based methodologies that have proven extremely effective. Our Professional Learning Communities will continue their work with a busy schedule of trainings and meetings, which will foster collaboration and provide our staff with the tools and skills needed to continue being on the cutting edge of effective instruction and enhance student outcomes. However, OJUSD’s service does not stop at the classroom door. OJUSD has greatly expanded Mental Health and Counseling Services to provide students the support needed to be successful when faced with challenges. We strongly encourage students to reach out to our Counseling Department or students may refer cases to a trusted staff member. Students may also anonymously report concerns or cases through our “StopIt” app. Student wellbeing and safety is a top priority. We have implemented safety provisions by hardening the exterior perimeter of our schools. We continue to expand our surveillance system, DOJ screenings for visitors, and continued partnership with Oakdale Police Department to employ a full-time School Resource Officer.

Along with having established a strong core academic program, Oakdale High has demonstrated its vocational and career development programs also lead the county and surrounding area. Oakdale High continues to invest in making sure students have access to industry standard tools, technology, equipment, and machinery that prepares graduates to be college and career ready. Our facilities echo this commitment as evident in the computer & architectural design labs, various shops, and the continued expansion of the School Farm operated by the agriculture department. Not to be outdone is the continued development and expanded facilities serving our Performing Arts programs. Drawing & Ceramics, Band & Drumline, and our Drama & Choir programs have all experienced growth and impressive achievements.

As we continue to look into the future to meet the needs of students and our community, OJUSD will continue to aggressively improve programs, facilities, and services in order to remain as the preeminent school district in Stanislaus County and beyond.

Sincerely,
Larry Mendonca
Superintendent, OJUSD

<http://www.oakdalehigh.com/>

From The PRINCIPAL

Welcome to the 2023-24 Trailblazer. This course catalog serves two purposes: helping with registration decisions for the 2023-2024 school year and providing parents and students with information about graduation requirements, college entrance requirements, course information, and course sequences.

7-Period Day

All students are required to take at least a six-period schedule. An early consideration in choosing classes for 2023-2024 is whether students will take advantage of the 7-period day. The 7-period day gives students the opportunity to enrich their educational experiences by taking one extra class. This provides students the opportunity to experience subjects and activities they might not otherwise attempt or receive assistance in an area in which they struggle. Students who need to make up credits toward graduation should consider a 7-period schedule. Students who function better by starting class later in the morning may choose a period 2-7 schedule. Busses do not arrive for period 2; therefore students selecting a 2-7 schedule would need their own transportation to school for second period.

Because athletic practice sometimes begins during period 7, 7th period class may not be an option for athletes. Seniors behind in credits may be required to take a seven period day to earn additional credits toward graduation. Parents and students should be aware that if they select the 7th period option they will not be able to opt out after school starts because staff allocation and assignments will have already been contracted. For more information about the 7-period day, please call the Counseling Office at (209) 848-7111.

Students should do homework each night, turn in their assignments, and apply themselves to the academic content we offer. Students need the support of their parents. Encourage your child to use some kind of Tracker/Organizer regularly. Students should be writing their assignments as well as any upcoming assignments/quizzes/tests in the Tracker daily. Set aside time for homework each day – even if your student says he/she has no homework. If progress reports show less than satisfactory results, clamp down. Students having trouble in a class should take advantage of opportunities for extra help. All of our teachers will help during their office hours or by appointment. For course sign-ups, please call the school at (209) 847-3007 or the Oakdale High School Counseling Office at (209) 848-7111.

Oakdale Joint Unified School District

CORE VALUES

We believe all students and staff should . . .

- Achieve Excellence in All School Endeavors
- Lead Courageously
- Enact Justice on Behalf of Others
- Accept Responsibility for Their Actions
- Maintain Safe Schools and Positive Learning Environments for All

STUDENT GOALS

Every student will . . .

- Demonstrate academic growth as measured by the local Common Formative Assessment System and CAASPP (California Assessment of Student Performance and Progress).
- Improve his/her academic performance each year.
- Be able to read at grade level by the end of 3rd grade.
- Demonstrate K-8 math fluency and proficiency in critical areas of focus to prepare students for increased rigor of Integrated Common Core Math in high school.
- Identify a career interest and develop an action plan for pursuing that career by the end of the 8th grade.
- Meet the District's rigorous and relevant standards for graduation.

**The phrase "No Excuses" is in direct relationship to the teaching/learning dynamic. (Board Approved 1/13/14)

Oakdale High School

Oakdale High School takes **PRIDE** in becoming lifelong learners. Preparing **Responsible Students** In a **Diverse** environment while aiming for **Excellence**.

Oakdale High School Mustangs students will be:

Ready for college and career opportunities upon graduation

Engaged learners achieving academic growth

Demonstrate active participation within the school community, in both academics and extra-curricular activities.

TITLE IX ASSURANCES

We wish to inform all individuals and organizations that Oakdale High School, in compliance with Title IX regulations, does not discriminate on the basis of race, national origin, sex or handicap.

ACADEMIC INFORMATION

GRADES AND CREDITS

Each school year is divided into two semesters and four quarters. Progress Reports are issued each quarter and midway through each quarter and serve as a warning to students who have a grade below C minus. Quarter grades and semester grades are used to calculate eligibility. Semester grades appear on permanent records.

For each class passed, students earn five credits per semester (10 per year). In order to graduate in four years, students should earn 60 credits per year and at least 230 by graduation time. Refer to the table on page 4 for specific graduation requirements.

SEMESTER EXAM POLICY

All students must be given a final (semester) exam. No semester exams may be given early without permission from the Principal for special reasons.

If a student is absent for the semester exam, the teacher will contact the Attendance Office to confirm if the student has been excused for illness and calculate the semester grade using a zero for the semester exam. For semester exams mid-year, the student would then have no more than two weeks to make up the missed exam upon return to school in January. For second semester exams, the student would be required to make up the exam during summer with the Summer School Principal. After making up exams missed because of illness, the semester grade would then be recalculated by the teacher and submitted to the Registrar.

Students leaving school for family vacations prior to the end of a semester will not be given semester exams early. Teachers will calculate their grades with a zero on the semester exam.

Short-term Independent Study is not permitted during the first two weeks and last two weeks of a semester.

AERIES STUDENT INFORMATION SYSTEM - PARENT PORTAL

Aeries.net Parent Portal is designed to allow parents and students access to their own information (i.e. grades and attendance). This information is only accessible by knowing the student's ID number, telephone number, and verification code. By setting up an account and/or logging onto the parent portal, you agree to abide by district rules and regulations. Please contact Oakdale High School's Counseling Office at (209) 848-7111, to obtain access to the Aeries Parent Portal.

CREDIT/NO CREDIT OPTION

A student may enroll in elective courses (0 period, 7th period and/or 8th period athletics only) on a Credit/No Credit basis. An elective course is a course that is not taken to meet a specific graduation requirement.

- The Credit/No Credit option may only be exercised if the student is concurrently enrolled in six 5 credit courses for which a letter grade will be issued.
- A maximum of 30 credits of Credit/No Credit course work may be applied to the 230-credit graduation requirement.
- The student is cautioned that colleges and universities may decline to consider course work completed on a Credit/No Credit basis when evaluating the transcript of an applicant for admission.
- Class changes to Credit/No Credit must be completed during the first 15 days of each semester.

THE REGISTRATION PROCESS AND SCHEDULE CHANGES

Registration for classes is a yearlong process. Counselors meet individually with freshmen, sophomores, and juniors, and seniors to develop career goals, educational goals, and a four-year plan. Each student with the assistance of a counselor will make course requests for the next year that best matches the student's career and educational goals. The student and counselor will also discuss graduation requirements, college requirements, and student progress toward meeting these requirements.

In the spring, class rosters will be printed in order for teachers to make placement recommendations in the areas of science, math, foreign language and other courses that have prerequisites. Students are given a copy of their course requests. At that time, they are able to request changes to their electives and also to discuss questions related to course recommendations with their teachers and parents. Parents are to sign the copy and return it to the Counseling Office for processing. At this time, parents should phone the Counseling Office with any questions regarding course requests relative to graduation and college eligibility requirements.

Once the school receives the signed course request forms back from the students, construction of the school's master schedule begins. This process involves arranging the appropriate number of sections (classes) for the courses requested so as to maximize the opportunity for each student to get their requested courses. The master schedule process is typically completed near the end of the school year then adjusted as personnel changes occur.

In August, students will pick up their completed schedules at Round-Up and once again have the opportunity to request changes to their schedules before school begins. Before school starts, counselors will attempt to make appropriate student requested changes until class size limits are met or class sizes are leveled. In requesting changes, students should be aware of graduation and college eligibility requirements.

Schedule changes within the first six weeks will be considered if a student is misplaced in a core academic class (i.e. a student has been placed in Math II and should be in Math I). Any other schedule change requests will be considered after the student has met the following criteria:

- 1) Parent needs to make contact with teacher and counselor as soon as the problem develops.**
- 2) Student needs to attend office hours twice a week for a minimum of three weeks.**
- 3) Documentation from parent verifying that a minimum of thirty minutes per day has been used as study time for the problem class.**
- 4) Upon verification of steps 1-3, a parent, teacher, counselor student conference with the Vice-Principal will be held to ascertain whether all avenues have been exhausted.**
- 5) If conference parties agree that a schedule change is needed, the student may be transferred if space is available.**

Elective schedule change requests will only be accepted during the first six weeks of a semester without penalty. After that time, if a request is granted by administrative appeal, the Registrar will record a grade of "WF" (withdrawal failure) on the permanent transcript.

CREDIT RECOVERY AND ADVANCEMENT

SUMMER SCHOOL

Students who fail a required class or fall behind in the number of credits needed for graduation should make up these deficiencies in summer school, if it is offered. Students may also use the 7-period schedule option to make up two semesters of a required class.

EDGENUITY

Students who are at least 16 years of age have access to Edgenuity. Seats are filled on a first come, first serve basis with Seniors and Juniors having priority. Edgenuity is an online high school course program for students who are credit deficient, have impacted schedules, or seeking grade improvement. Students can take one course, per semester. Students are required to attend courses on-site one day a week for 3 hours. The rest of the course is expected to be completed by the students on their own time. Please see your counselor for an application that includes objectives, computer access expectations and student responsibility.

COMMUNITY COLLEGE COURSES

Oakdale High School students can enroll in some of the courses offered through Columbia Community College and/or Modesto Junior College. Students should make an appointment with their high school counselor for more information on course offerings and the application process. Students can also visit mjc.edu or gocolumbia.edu for more information.

CTE Transitions: Articulated Courses with Modesto Junior College

Students will receive credit on their MJC transcript for an articulated course taken in high school once they have completed the following:

Complete the MJC online application to obtain a student ID W#

Submit a Student Request to Participate by February 28 each academic year

Must pass articulated high school course with an A or B grade (for most courses) in the 2nd semester

- CS Web Design

ADVANCED PLACEMENT (AP) CLASSES

AP courses are college-level courses. These courses are much more rigorous than regular academic classes, and students who successfully pass the AP exams near the end of the school year earn credits at most colleges and universities. Students accepted for enrollment into these courses have demonstrated aptitude and/or outstanding achievement in one or more academic areas. Students are expected to do extensive work outside of class to support in-class activities. These courses receive the following grade points: A=5, B=4, C=3, D=1, F=0. Oakdale High School supports any student who wishes to accept the challenge of Advanced Placement (AP) courses. With that challenge comes certain expectations regarding the maturity and capability of enrolled students. Students should be motivated to take an AP class by an appreciation for the subject. Students who are over extended by academics and/or extracurricular activities should give careful consideration to whether they have time to devote to an AP class and/or to the number of AP classes that they can successfully complete. OHS suggests a maximum of two AP classes per semester. Students enrolled in Advanced Placement courses are expected to prepare for and take the Advanced Placement Examination offered for each AP course.

ACADEMIC BLOCK “O” ELIGIBILITY

In order for a student to qualify for an Academic Block “O”, he/she must have a 4.0 grade point average from the previous spring semester or the current fall semester.

RENAISSANCE PROGRAM

Jostens Renaissance is a process that encourages academic excellence, improvement, and citizenship. It is the first and only national education-focused program created to recognize and reward the academic achievements of students. At Oakdale High School, students are able to earn a Renaissance card quarterly for their academic performance or improvement. Renaissance card levels are tiered and each offer different levels of rewards from classroom teachers and school spirit incentives. Card levels: Platinum Card = 4.0 or higher, Gold Card = 3.0-3.99, Red Card = 2.0-2.99 (no F's or Unsat. Citizenship).

ELIGIBILITY IN THE LOCAL CONTEXT

The ELC program ensures that academically talented and deserving California resident students from all over the state have the opportunity to attend a UC. Unlike the broader statewide eligibility pathway, which seeks to recognize top students from throughout the state, ELC draws qualified students from among the top 9 percent of each participating high school. California high school students who are eligible in the statewide context or eligible in the local context and are not admitted to any campus to which they apply will be offered a spot at another campus if space is available. ucop.edu/sas/elc/ For a specific college, a senior may request to have a transcript that reflects unweighted grades. If a senior would like to have an unweighted GPA transcript for a specific college, the student will need to contact their counselor. Please note that OHS uses a weighted academic grade point average for purposes of class rank and recognition of Valedictorian and Salutatorian.

RECOGNITION FOR ACADEMIC PERFORMANCE

OJUSD QUALIFICATION FOR VALEDICTORIAN AND SALUTATORIAN

Criteria: All conditions below are the determining basis for the selection of the Valedictorian and Salutatorian at Oakdale High School.

- The Valedictorian will be recognized as the student(s) who has the highest weighted academic GPA. The student with the second highest weighted academic GPA will be the Salutatorian.
- In order to qualify for the Valedictorian or Salutatorian, students must complete a minimum of three AP courses and must physically attend a full schedule of classes on a daily basis on the Oakdale High School campus.
- The GPA for Valedictorian and Salutatorian will be based on the first 7 semesters of grades. A student must have completed 5 of the first 7 semesters at Oakdale High School in order to be considered for Valedictorian or Salutatorian at OHS.
- If two or more students tie for Valedictorian, there will be no Salutatorian. The individuals tied for the distinction will be recognized as “Co-Valedictorians.”

GRADUATING WITH HONORS

In order for a student to graduate with Honors Designation, he/she must have an overall GPA of:

3.25 – 3.49 = Honors

3.50 – 3.74 = High Honors

3.75 & above = Highest Honors

GPA is based on first 7 semesters.

WEIGHTED GRADES

Grades points in traditional classes are A=4, B=3, C=2, D=1, F=0. AP classes earn weighted grade points for A-C grades—A=5, B=4, C=3, D=1, F=0.

UNWEIGHTED GPA TRANSCRIPT REQUEST

For a specific college, a senior may request to have a transcript that reflects unweighted grades. If a senior would like to have an unweighted GPA transcript for a specific college, the student will need to contact their Counselor. Please note that OHS uses a weighted academic grade point average for purposes of class rank and recognition of Valedictorian and Salutatorian.

CALIFORNIA SCHOLARSHIP FEDERATION (CSF) ELIGIBILITY

1. You must earn a minimum of 10 points from last semester's grades.
 - a. The first 4 points must be from LIST I. (unless you are a senior applying for membership in February or June).
 - b. The first 7 points (including the four points described in above) must be from LISTS I and II.
 - c. The remaining points may come from any list (I, II or III).
2. You must use no more than 5 courses to qualify.
3. No CSF points are given for physical education, courses taken in lieu of physical education, subjects repeated to improve a grade, courses involving clerking and office/teaching assisting, and courses taken on a pass/fail basis.
4. CSF points are granted as follows:
 - a. A grade of **A = 3 CSF Points**
 - b. A grade of **B = 1 CSF Point**
 - c. One additional point shall be granted for a grade of A or B in an AP course, up to a maximum of two such points per semester.
 - d. A grade of **C = 0 CSF Points**
 - e. A grade of D or F in any course, even in one you cannot use to qualify, disqualifies you from membership at this time.
5. Semester membership is based on work done in the **previous** semester. (Under very limited circumstances summer school may also be used; you should check with your adviser before listing any summer school work.)
 - a. You must reapply each semester.
 - b. Please pick up an application/list from the CSF Advisor, Mr. Rapisura.

HELPFUL WEBSITES FOR ACADEMIC PLANNING

Oakdale High School Website: oakdalehigh.com

Cal State Apply: <https://www2.calstate.edu/apply> - assists students in planning for college, in selecting the appropriate CSU campus to attend, in planning how to finance their education, and in applying for admission

CollegeBoard - collegeboard.org - SAT registration, practice test, admission tickets. Students can also conduct a college search by narrowing down different fields and criteria

Common Application: commonapp.org/ - an undergraduate college admission application that applicants may use to apply to any of nearly 700 member colleges and universities in 48 states and the District of Columbia, as well as in Canada, China, and many European countries.

ACT Information: actstudent.org - ACT registration, practice test, admission ticket

Federal Student Aid: fafsa.ed.gov - This is the Free Application for Federal Student Aid. This is the application that every college or university will use to determine financial aid

universityofcalifornia.edu - Find information about UC admissions policy and financial aid, determine your eligibility for admission, and apply for admission online

NCAA Eligibility Center: web3.ncaa.org/ecwr3 - NCAA Clearinghouse - Students who are planning to play NCAA division I or II complete the NCAA eligibility form at this website.

Dream Act: <https://dream.csac.ca.gov/>

Fast Web: fastweb.com - Scholarship search website.

Big Future: <https://bigfuture.collegeboard.org/> - browse majors and careers, explore career options, financial aid/scholarship information, and information on the redesigned SAT, also step-by-step college planning

Mexican American Legal Defense and Educational Fund: <http://maldef.org/> (Mexican American Legal Defense and Education Fund) - MALDEF strives to implement programs that are structured to bring Latinos into the mainstream of American political and socio-economic life; providing better educational opportunities; encouraging participation in all aspects of society; and offering a positive vision for the future.

Western Interstate Commission for Higher Education: <http://wiche.edu/wue> - If you are a resident of a WICHE state, you are eligible to request a reduced WUE tuition rate of 150% of the resident rate at more than 160 participating institutions in the West.

DUAL ENROLLMENT

OJUSD policy supports Dual Enrollment when an equivalent course is not available at Oakdale High School.

OJUSD Board Policy 6143 Courses of Study -- not only identifies the core content for K-6 and 7-12 that must be provided but assurance by the district that a pathway is established supporting success for students within the core disciplines. Going outside OHS to a community college to 'replace' a course within the required courses of study at OHS disrupts the path and hence disrupts the course of study.

48800.

(a) The governing board of a school district may determine which pupils would benefit from advanced scholastic or vocational work. The intent of this section is to provide educational enrichment opportunities for a limited number of eligible pupils, rather than to reduce current course requirements of elementary and secondary schools, and also to help ensure a smoother transition from high school to college for pupils by providing them with greater exposure to the collegiate atmosphere. The governing board of a school district may authorize those pupils, upon recommendation of the principal of the pupil's school of attendance, and with parental consent, to attend a community college during any session or term as special part-time or full-time students and to undertake one or more courses of instruction offered at the community college level.

(b) If the governing board of a school district denies a request for a special part-time or full-time enrollment at a community college for any session or term for a pupil who is identified as highly gifted, the governing board shall issue its written recommendation and the reasons for the denial within 60 days. The written recommendation and denial shall be issued at the next regularly scheduled board meeting that falls at least 30 days after the request has been submitted.

(c) A pupil shall receive credit for community college courses that the pupil completes at the level determined appropriate by the governing boards of the school district and community college district.

(d) (1) The principal of a school may recommend a pupil for community college summer session only if that pupil meets both of the following criteria:

(A) Demonstrates adequate preparation in the discipline to be studied.

(B) Exhausts all opportunities to enroll in an equivalent course, if any, at the pupil's school of attendance.

(2) For any particular grade level, a principal shall not recommend for community college summer session attendance more than 5 percent of the total number of pupils who completed that grade immediately before the time of recommendation.

(3) (A) Except as provided in subparagraph (B), a high school pupil recommended by the pupil's principal for enrollment in a course shall not be included in the 5-percent limitation of pupils allowed to be recommended pursuant to paragraph (2) if the course in which the pupil is enrolled is part of a College and Career Access Pathways (CCAP) program established pursuant to Section 76004 in which a majority of the pupils served are unduplicated pupils, as defined in Section 42238.02, the course meets one of the criteria listed in clauses (i) and (ii), and the high school principal who recommends the pupil for enrollment provides the Chancellor of the California Community Colleges, upon the request of that office, with the data required for purposes of paragraph (5).

(i) The course is a lower division, college-level course for credit that is designated as part of the Intersegmental General Education Transfer Curriculum or applies toward the general education breadth requirements of the California State University.

(ii) The course is a college-level, occupational course for credit assigned a priority code of "A," "B," or "C," pursuant to the Student Accountability Model, as defined by the Chancellor of the California Community Colleges and reported in the management information system, and the course is part of a sequence of vocational or career technical education courses leading to a degree or certificate in the subject area covered by the sequence.

(5) On or before March 1 of each year, the Chancellor of the California Community Colleges shall report to the Department of Finance the number of pupils recommended pursuant to paragraphs (3) and (4) who enroll in community college summer session courses and who receive a passing grade. The information in this report may be submitted with the report required by subdivision (c) of Section 76002.

(6) The Board of Governors of the California Community Colleges shall not include enrollment growth attributable to paragraphs (3) and (4) as part of its annual budget request for the California Community Colleges.

(7) Notwithstanding Article 3 (commencing with Section 33050) of Chapter 1 of Part 20 of Division 2, compliance with this subdivision shall not be waived.

B) The 5-percent limitation of pupils allowed to be recommended pursuant to paragraph (2) shall apply to all physical education courses.

(4) (A) Except as provided in subparagraph (B), a high school pupil recommended by the pupil's principal for enrollment in a course shall not be included in the 5-percent limitation of pupils allowed to be recommended pursuant to paragraph (2) if the course in which the pupil is enrolled is either of the following:

(i) A lower division, college-level course for credit that is designated as part of the Intersegmental General Education Transfer Curriculum or applies toward the general education breadth requirements of the California State University.

(ii) A college-level, occupational course for credit assigned a priority code of "A," "B," or "C," pursuant to the Student Accountability Model, as defined by the Chancellor of the California Community Colleges and reported in the management information system, and the course is part of a sequence of vocational or career technical education courses leading to a degree or certificate in the subject area covered by the sequence.

(B) The 5-percent limitation of pupils allowed to be recommended pursuant to paragraph (2) shall apply to all physical education courses.

(5) On or before March 1 of each year, the Chancellor of the California Community Colleges shall report to the Department of Finance the number of pupils recommended pursuant to paragraphs (3) and (4) who enroll in community college summer session courses and who receive a passing grade. The information in this report may be submitted with the report required by subdivision (c) of Section 76002.

(6) The Board of Governors of the California Community Colleges shall not include enrollment growth attributable to paragraphs (3) and (4) as part of its annual budget request for the California Community Colleges.

(7) Notwithstanding Article 3 (commencing with Section 33050) of Chapter 1 of Part 20 of Division 2, compliance with this subdivision shall not be waived.

(e) Paragraphs (3) to (6), inclusive, of subdivision (d) shall become inoperative on January 1, 2027.

(Amended by Stats. 2019, Ch. 784, Sec. 1. (AB 1729) Effective January 1, 2020.)

NCAA ELIGIBILITY

web3.ncaa.org/ecwr3

During the 2023 NCAA Convention, Divisions I and II adopted legislation to remove standardized test scores from initial-eligibility requirements for student-athletes who initially enroll full time on or after August 1, 2023. The vote was based on the recommendation from the Standardized Test Score Task Force, a specialized group charged with reviewing initial-eligibility requirements as part of the NCAA's eight-point plan to advance racial equity.

Among other requirements, college-bound student-athletes planning to compete at an NCAA Division I or II school are still required to have a 2.3 (DI)/2.2 (DII) grade-point average in 16 NCAA-approved core-course units and provide proof of high school graduation.

DIVISION I

If you plan to attend a D1 school, you must complete 16 NCAA-approved core courses in 8 academic semesters or 4 consecutive academic years from the start of the 9th grade. Ten of the core courses must be completed before the seventh semester; seven (7) of the 10 must be in English, math or natural/physical science. These courses/grades are “locked in” at start of the seventh semester (cannot be repeated for grade-point average [GPA] improvement to meet initial-eligibility requirements for competition). Students must earn an SAT combined score or ACT sum score that matches your core-course GPA (min. 2300) on the D1 sliding scale.

16 Core Courses

- 4 years of English
- 3 years of math (Algebra I/Math I or higher)
- 2 years of natural/physical science (1 year of lab if offered)
- 1 year of additional English, math or natural/physical science
- 2 years of social science
- 4 years of additional courses (any area above, foreign language or comparative religion/philosophy)

DIVISION II

- 3 years of English.
- 2 years of mathematics (Math I or higher).
- 2 years of natural/physical science (1 year of lab if offered by high school).
- 3 years of additional English, mathematics or natural/physical science.
- 2 years of social science.
- 4 years of additional courses (from any area above, foreign language or comparative religion/philosophy).

<i>University of California and California State University Important Facts</i>		
System	California State University (CSU)	University of California (UC)
Number of Campuses	23 Bakersfield, Channel Islands, Chico, Dominguez Hills, East Bay, Fresno, Fullerton, Humboldt, Long Beach, Los Angeles, Monterey Bay, Northridge, Sacramento, San Bernardino, San Diego, San Francisco, San Jose, San Marcos, Sonoma, Stanislaus, Cal Poly Pomona, Cal Poly San Luis Obispo, California Maritime Academy	10 Berkeley, Davis, Irvine, Los Angeles, Merced, Santa Barbara, Santa Cruz, San Diego, San Francisco, Riverside Note: San Francisco is not open to undergraduate admissions
Curriculum	Undergraduate programs are designed to provide a combination of theory and application necessary for graduate work or employment in one's chosen field of study.	Undergraduate programs are designed to prepare students for graduate and professional work. Curriculum emphasizes theory and professional preparation.
Minimum Entrance Requirements for Freshmen	Admission offices at the 23 campuses use three factors to determine eligibility. Most applicants who are admitted meet the standards in each of the following areas: Specific high school courses (referred to as the "a-g" courses) Grades in "a-g" courses and test scores Graduation from high school Many CSU campuses have higher standards for particular majors or for students who live outside the local admission area. Because of the number of students who apply, several campuses have higher standards (supplementary admission criteria) for all applicants.	"a-g" subject requirements completed with C or better. At least 3.0 GPA and meet eligibility index; only UC approved courses calculated in GPA (grades 10-12).
College Entrance Exams	CSU will not use the SAT and ACT standardized tests for undergraduate admissions processes.	UC will not consider SAT or ACT test scores when making admissions decisions or awarding scholarships.
Degrees Offered	Four-year schools with graduate programs -- Various majors, depends on campus -- Pre-professional training -- B.A. and B.S. degrees -- Master's Degrees -- Teaching Credentials	Four-year schools with graduate and professional programs -- Various majors, depends on campus/research institution -- Pre-professional training -- B.A. and B.S. degrees Doctorates and professional degrees
Selectivity	CSU's admit roughly the top 30% of high school graduates. Impacted CSU's and majors are more selective.	UC campuses are more selective, attempting to admit roughly the top 12.5% of high school graduates.
Application Period	For fall admission: October 1 – November 30	For fall admission: October 1 – November 30
Application	Must apply to each campus individually through www2.calstate.edu/apply	Only one application for all UC's universityofcalifornia.edu
Application Costs	\$70 per campus	\$80 per campus
Fee Waiver	Yes—eligible students can qualify for CSU fee waiver	Yes, part of the UC application
Scholarship Information	Contact each CSU Financial Aid Office	Listed on UC application; advisable to contact each UC Financial Aid Office

Counseling Corner

Our mission is to address the academic, personal/social and career needs of our students. Our goal is to get to know our students individually in order to better serve and prepare them for their secondary opportunities. As student advocates, we provide support and want to make sure students are aware of their options and making progress toward meeting their goals. We work with students, parents, teachers, administrators, and community organizations to ensure our students have the skills necessary to achieve their fullest potential in high school and beyond. Our proactive approach includes meeting with each student individually to discuss course options for the following year and post-secondary options. College and career classroom presentations, numerous parent nights, attending IEPs, SSTs, and 504 meetings and assistance in the college application process are just a few of the services we provide to our students. We maintain an open door policy and encourage our students and parents to contact us at any time. Please visit our website at oakdalehigh.com/counseling.

Career Center

Our High School is very fortunate to staff an office dedicated to our amazing OHS students, offering them the resources for various scholarship opportunities. We take pride in knowing that we give them multiple opportunities, such as volunteer work, Career Cruising instruction, tutoring options and computer access which is extremely helpful throughout their high school years. We encourage you to visit our web page often and check out the updated scholarship bulletins, volunteering, and part-time work opportunities! oakdalehigh.com/careers

CLUBS AT OHS

At Oakdale High School, students have many opportunities for students to extend themselves beyond the classroom. They are encouraged to learn lessons about teamwork, responsibility, commitment, and the rewards of hard work.

S-Club			

Oakdale Joint Unified School District Agriculture and Natural Resources Sector

Agriculture is an important and integral part of the OHS experience. Many of our students come from agriculture backgrounds. OHS has over 300 students taking Ag classes with many students having more than one Ag class. The Ag curriculum parallels the regular science curriculum. Freshmen may take Agriscience Earth (Earth Science), and sophomores may take Agriscience Biology (Life Science). These courses parallel the state curriculum and align with state standards. These courses also meet UC/CSU A-G entrance requirements in their respective areas. This will help Ag students do well on state tests.

Once students have the basics, they move on to other Ag electives. These elective include Floral Design, Leadership, Horticulture, and Advanced Ag Mechanics --where students learn to weld and to work on individual projects related to agriculture.

Due to funding requirements, students who sign-up for Ag classes are encouraged to participate in FFA. FFA makes a positive difference in the lives of students by developing their potential for premier leadership, personal growth and career success through agricultural education. The agricultural education program provides a well-rounded, practical approach to learning through three components: Classroom education, hands-on supervised agricultural experiences and FFA, which provides leadership opportunities and tests students' agricultural skills.

Course Offerings

- Ag Biology and the Living Earth
- Ag Chemistry in the Living Earth
- Intro to Ag Mech 14507
- Advanced Ag. Mech & Weld 14521
- Ag Welding and Fabrication 14557

AG BIOLOGY AND THE LIVING EARTH

Credits: 10
CSF III

Grade: 9-12
UC/CSU: D

Sustainable Agriculture is a one year course designed to integrate biological science practices and knowledge into the practice of sustainable agriculture. The course is organized into four major sections, or units, each with a guiding question. Unit one addresses the question, What is sustainable agriculture? Unit two, How does sustainable agriculture fit into our environment? Unit three, What molecular biology principles guide sustainable agriculture? Unit four, How do we make decisions to maximize sustainable agricultural practices within a functioning ecosystem? Within each unit specific life science principles will be identified with agricultural principles and practices guiding the acquisition of this knowledge, culminating in the development of a sustainable farm model and portfolio of supporting student research.

Prerequisite:

AG CHEMISTRY IN THE LIVING EARTH

Credits: 10
CSF III

Grade: 10-12
UC/CSU: D

Sustainable Agriculture is a one year course designed to integrate biological science practices and knowledge into the practice of sustainable agriculture. The course is organized into four major sections, or units, each with a guiding question. Unit one addresses the question, What is sustainable agriculture? Unit two, How does sustainable agriculture fit into our environment? Unit three, What molecular biology principles guide sustainable agriculture? Unit four, How do we make decisions to maximize sustainable agricultural practices within a functioning ecosystem? Within each unit specific life science principles will be identified with agricultural principles and practices guiding the acquisition of this knowledge, culminating in the development of a sustainable farm model and portfolio of supporting student research.

Prerequisite:

ANIMAL SCIENCE

Credits: 10

Grade: 11-12
UC/CSU: D

This course will provide the student with principles in Animal Science focusing on the area of mammalian production, anatomy, physiology, reproduction, nutrition, respiration and genetics. This course is intended to successfully prepare those students who plan on majoring in Agricultural Sciences at a college or university. Frequent opportunities are given to develop and apply rational and creative thinking processes of observing, comparing, organizing, relating, inferring, applying and communicating. Also, there is an emphasis on developing values aspirations and attitudes that promote the student's understanding personal involvement with the scientific discoveries of the future. There are ample opportunities for hands on class participation with animals in this class to enable students to demonstrate their knowledge of restraint, handling, behavior, etc.

Prerequisite: Students must be previously enrolled in another agriculture classes to take this class.

FLORAL DESIGN (Introduction)

Credits: 10
CSF III

Grade: 10 – 12
UC/CSU: F

Students in this course will apply an artistic approach to floral design. Students will explore elements and principles of design; two and three dimensional designs; history of floral art; arrangement styles and techniques; and seasonal, holiday, and occasional designs. Students will achieve this through creating, designing, identifying, explaining and evaluating all topics of study. This course meets graduation requirements as a visual/performing art.

Prerequisite: none

FLORAL DESIGN II (Capstone)

Credits: 10
CSF III

Grade: 11 – 12
UC/CSU:

In this course, Floral Design I students will progress their individual skills in dimensional designs, arrangement styles, and floral techniques and increase their capabilities through creating, designing, identifying, explaining and evaluating all topics of study. Students will learn merchandising of floral arrangements and the importance of cost analysis and marketing. This course meets graduation requirements as a visual/performing art.

Prerequisite: Successful completion of Floral Design I

INTRODUCTION TO AG MECHANICS (Introduction)

Credits: 10
CSF III

Grade: 9-12
UC/CSU:

This course is designed for students interested in understanding basic agriculture mechanical skills. Units of instruction include shop safety, tool identification, use of power tool equipment, wood working, metal working, and electricity and plumbing. Instruction is also given in FFA leadership, citizenship, and career education. This course fulfills one year of elective credit.

Prerequisite:

ADVANCED AG MECHANICS AND WELDING (Concentrator)

Credits: 10
CSF III

Grade: 10 – 12
UC/CSU:

Students will develop skills in advanced woodworking, arc, mig, tig and oxy-acetylene welding, project design/construction, and basic hydraulics. Individual student projects can be built when basic welding skills are mastered. FFA leadership, project activities, and record keeping are integral parts of the course. This course earns one year of elective credit.

Prerequisite: Completion of Ag Mechanic Skills or signature of the teacher.

AG WELDING & FABRICATION (Capstone)

Credits: 20
CSF III

Grade: 11 – 12
UC/CSU:

This class is designed to give the students maximum shop time for building and repairing agriculture equipment and constructing other projects. Units of instruction are given in advanced aspects of welding instruction. Students must have plans for their own building projects or be prepared to work on projects assigned by the instructor. Instruction units on project design and ordering materials will be included. This is a two-hour class and may be taken for two years for elective credit. FFA leadership projects and record keeping activities are an integral part of this course.

Prerequisite: Successful completion of Advanced Ag Mechanics

AGRICULTURE GOVERNMENT/ECONOMICS

Credits: 10
CSF I

Grade: 12
UC/CSU: A (Gov)/
G (Econ)

This course is designed for students interested in understanding the operations and institutions of economic systems as applied to our nation's largest industry, agriculture. Units of instruction include basic economic behavior and international trade policy. This course will also review how our government was developed and how it functions. Agriculture policy in our government structure will be reviewed. Instruction is also given in leadership, citizenship, and career education. This class meets the government/economics requirements for graduation.

Prerequisite: Signature of teacher required. Students must be previously enrolled in other agriculture classes to take this class.

HORTICULTURE

Credits: 10
CSF III

Grade: 9-12
UC/CSU: G

This course will provide the student with theories and principals related to environmental and ornamental horticulture. This course is designed to successfully expose students to both the environmental and botanical nature of horticulture. This course is intended to develop an appreciation of horticulture, incorporate scientific methods and biological principals within the environment, understand plant functions and uses, and recognize the diversity of life and the interrelationships among organisms in nature.

Prerequisite:

Oakdale Joint Unified School District English Language Arts

The course of study for English classes at OHS has been carefully crafted to give students a variety of experiences, to improve skills, to further teach cultural literacy, and to prepare students for further education beyond high school.

ENGLISH CURRICULUM

Students think and learn in many different ways. Some students are good at one thing and some another. One of the major strengths of OHS English is the variety of kinds of activities in which students can engage. A variety of activities give all students the opportunity to work in areas of strength – their best ways of learning. This gives them feelings of success enabling them to do better when working in areas of weakness, making for well-rounded, educated students.

Career Opportunities

Paralegal	Copywriter	Business	Government
Publishing	Advertising	Marketing	Writing
Editing	Journalism	Public Relations	Media

ENGLISH I CP

NCAA

Credits: 10
CSF I

Grade: 9
UC/CSU: B

The voyage of knowledge and enlightenment begins freshman year, with the exploration of growth and diversity. Experience the drama and challenge of youth through the eyes of Shakespeare's *Romeo and Juliet* and Scout's *To Kill a Mockingbird*. A variety of short stories and poems will be perused. All students will give either an informative or persuasive speech, and will complete a short research paper.

Prerequisite:

ENGLISH II CP

NCAA

Credits: 10
CSF I

Grade: 10
UC/CSU: B

During the sophomore year, travel to the four corners of the globe. Your itinerary will include a visit to treacherous ancient Rome, home of Julius Caesar, or a light hearted trip to Athens *In a Midsummer's Night Dream*; a guided tour of an isolated Pacific island where a group of young boys will encounter *The Lord of the Flies*; and a heartbreaking tour of the Russian Revolution and Nazi Germany with *Animal Farm* and *Night*; an extended stay in Arthurian England, where young men find their destiny at the Round Table. Several excursions through short stories and poetry will be made all year long. Students will make a return trip to speeches and term papers.

Prerequisite:

ENGLISH III CP

NCAA

Credits: 10
CSF I

Grade: 11
UC/CSU: B

The junior year is a journey through the corridors of American history. Reach into Edgar Allan Poe's grab bag of vivid imagery. Partake in a wild and memorable adventure down the Mississippi River with Huck Finn. Capture the excitement of the bootlegging brouhaha of the roaring 20's with Jay Gatsby. Experience the perils of the future in *Fahrenheit 451*. Day trips include visits to American short stories and poetry. Take a new look at speeches by delivering a multimedia presentation and an impromptu speech. Return once again to the pleasures of research.

Prerequisite:

ENGLISH IV CP

NCAA

Credits: 10
CSF I

Grade: 12
UC/CSU: B

As seniors, embark on an odyssey of the mind as we travel through time and space to a world of daring and intrigue. Beware the Monster Frankenstein. Travel the United States with Chris McCandless in *Into the Wild* and to a dystopian future with Winston in 1984. Sample the sensation of Shakespearean tragedy as we journey through Scotland in *Macbeth*; as seniors you will also enjoy the mythology of Ancient Greece, and a chance to demonstrate your debate skills

Prerequisite:

ENGLISH I AND II ACCELERATED

NCAA

Credits: 10
CSF I

Grade:
UC/CSU: B

These courses are optional excursions available to those English travelers who have mastered the ability to navigate these courses. These excursions cost more in terms of time and effort, but are certainly well worth the trip. All four courses are designed to progressively prepare students for the Advanced Placement exam, and focus on in-depth analysis of literature, expository writing, and class discussion. Courses available are Pre AP English I and II. Listen to the daily bulletin for test dates or check with your teacher. To remain in one of these classes, you must maintain at least a “C” grade.

Prerequisite: Entrance into these courses are based on taking a writing assessment on a specified date and by meeting the criteria outlined in the OJUSD GATE Handbook. Teacher recommendation/signature required.

AP ENGLISH III-- LANGUAGE AND COMPOSITION

Weighted

NCAA

Credits: 10
CSF I

Grade: 11
UC/CSU: B

This is a junior-level course designed to prepare students for the rigorous AP exam in May. The focus is on in-depth analysis of literature, expository and reflective writing, class discussion, grammar, and vocabulary development. American literature is studied in the course, generally following a chronological progression. Novels, plays, short stories, and some poetry are emphasized. Students are admitted based upon grades from the previous year, teacher recommendations, and an exam that measures writing and analytical skills. Summer work is also required to enroll in the course.

Prerequisite: Entrance into this course is based on taking a writing assessment on a specified date and by meeting the criteria outlined in the OJUSD GATE Handbook. Teacher recommendation/signature required.

AP ENGLISH IV-- LITERATURE AND COMPOSITION

Weighted

NCAA

Credits: 10
CSF I

Grade: 12
UC/CSU: B

This is a senior-level course designed to prepare students for the rigorous AP exam in May. The focus is on in-depth analysis of literature, expository and reflective writing, and class discussion. British literature is the primary focus, which includes plays, novels, and poetry. Students are admitted based upon grades from the previous year, teacher recommendations, and an exam that measures writing and analytical skills. Summer work is also required to enroll in the course.

Prerequisite: Entrance into this course is based on taking a writing assessment on a specified date and by meeting the criteria outlined in the OJUSD GATE Handbook. Teacher recommendation/signature required.

ELA/ENGLISH LANGUAGE DEVELOPMENT I

Credits: 10
CSF III

Grade: 9 - 12
UC/CSU:

ELA/ELD I is taken concurrently with ELD Assist I. In this two-period course, students at the emerging level are introduced to both communicative and academic vocabulary, covering language patterns, grammatical structures, and oral skills needed for everyday school and community settings. Coursework is aligned with the CCSS for ELA/Literacy and ELD Standard

Prerequisite: Non-English speakers, teacher signature required.

ENGLISH LANGUAGE DEVELOPMENT ASSIST I

Credits: 10

CSF III

Grade: 9 - 12

UC/CSU:

ELD Assist I is taken concurrently with ELA/ELD I. This course has a strong emphasis on oral language development, reading, and writing tasks. Coursework is aligned with the CCSS for ELA/Literacy and ELD Standards

Prerequisite: Non-English speakers, teacher signature required.

ELA/ENGLISH LANGUAGE DEVELOPMENT II

Credits: 10

CSF III

Grade: 9 - 12

UC/CSU:

ELA/ELD II is taken concurrently with ELD Assist II. In this two-period course, students at the expanded level are in a print rich environment that includes nonfiction and fictional texts to enhance reading, writing, and literacy skills. Coursework is aligned with the CCSS for ELA/Literacy and ELD Standards.

Prerequisite: Limited English speakers, teacher signature required.

ENGLISH LANGUAGE DEVELOPMENT ASSIST II

Credits: 10

CSF III

Grade: 9 - 12

UC/CSU:

ELD Assist II is taken concurrently with ELA/ELD II. This course moves towards using English in more complex, cognitively demanding situations. Coursework is aligned with the CCSS for ELA/Literacy and ELD Standards.

Prerequisite: Limited-English speakers, teacher signature required.

ACADEMIC LANGUAGE DEVELOPMENT I-IV

Credits: 10

CSF III

Grade: 9 - 12

UC/CSU:

In this course, students at the bridging level acquire sophisticated academic and communicative language skills. In this print-rich environment students will solidify academic language in listening, speaking, reading, and writing.

Prerequisite: English Learners teacher signature required.

SPEECH

Credits: 10

CSF II

Grade: 9 - 12

UC/CSU: G

Students will learn the communication process, informative and persuasive speaking, debate, oral interpretation, and students will have ample opportunities for local and regional speech competitions.

Prerequisite: 9th and 10th grade students must have earned an A in both semesters of English in order to be enrolled.

ACADEMIC DECATHLON

Credits: 10

CSF II

Grade: 9 - 12

UC/CSU: G

This is an interdisciplinary course that provides college preparatory instruction in math, science, language, literature, social studies, art, music, economics, composition, and oral communication. Students learn to gather information, think critically, and solve problems. Students learn to be self-critical, to work individually as well as a team member, and to communicate. This course counts for 10 elective credits.

Prerequisite: Teacher signature required.

YEARBOOK

Credits: 10
CSF III

Grade: 10 - 12
UC/CSU: G

Members of the yearbook staff are the leaders and decision-makers of the Oakdale High School's yearbook. In yearbook class students will learn a number of journalism skills and complete the many tasks to create a high-quality yearbook that reflects the pictorial and written history of the campus activities and the lives of Oakdale students for the year. The yearbook course requires students to take part in all aspects of production of the yearbook including: interviewing other students, creating a theme, designing the cover and layout, taking photographs, and writing articles. Students must be willing and able to work after school, attend games and other school events on your own time.

Prerequisite: Must keep a 2.0 GPA and meet with the yearbook advisor prior to signing up.

FILM AS LITERATURE

Credits: 10
CSF II

Grade: 10 - 12
UC/CSU: G

This course is designed to teach students how to analyze, discuss, and write about film, both classic and modern. In the first half of the year, students will learn how to critically analyze the building blocks of film, including the script, acting, cinematography, editing and sound design. The second half of the year will be spent analyzing individual film genres (e.g. science fiction or movie musicals). This is a writing intensive course, in which movies will be examined in the same way literature is in English.

Prerequisite: 11th or 12th grade standing with a C or better in both semesters of the previous year's English class, or 10th grade standing with an A in both semesters of Freshman English.

CREATIVE WRITING

Credits: 10
NCAA

Grade: 10- 12
CSF II

UC/CSU: G

Creative Writing is a course for 10th - 12th grade students who are interested in writing fiction and non-fiction work through a variety of genres. This is a year long class explores the four genres of:

Fiction: Flash Fiction, Short Story, Children's Fiction, Genre Fiction (To be determined during school year)
Novels

Poetry: Poetic Forms

Creative Nonfiction: Journals and Essays

Plays/Script: 1 Act

Students enrolled in this class are expected to produce a variety of writing for class and for publication. Students will learn to critique and have their own work reviewed by a panel of peers for development. Student writers will be exposed to and participate in weekly and biweekly writing assignments that develop their capacity to write stories of various length on a variety of topics and in multiple genres. Students will be expected to participate as both writers and editors for the different groups that they will be working in. This class is a writing intensive class that will ask students to create and revise their created work over a period of several days with short writing to a period of several weeks with longer stories. Students will need to have access to the Internet and a reliable laptop or home computer to be able to complete many of the assignments.

Prerequisite: Students must have a passing grade of "C" or better in their previous years English class. Recommended for 10th-12th grade students.

Foreign Language

Course Offerings

- Spanish I 13010
- Spanish II 13020
- Spanish III 13030
- Spanish IV 13040
- Spanish for Spanish Speakers I 13021
- Spanish for Spanish Speakers II 13022
- AP Spanish Language 13060
- French I 13110
- French II 13120
- French III 13130
- French IV 13132

Most four-year colleges require two years or more years of foreign language. More than a ticket to college, foreign language is a window into a world beyond Oakdale and teaches students new ways of thinking. Therefore, foreign language instruction is popular among students planning to enter careers such as education, law enforcement, and business whether going directly to a four-year college or not. Foreign language instruction at OHS follows a communicative approach and has two main themes: communication and culture. All of the reading and writing that students do is in preparation for learning how to speak and improve foreign language speaking skills. Reading is used to gather vocabulary while writing is used to put words and thoughts together into proper form and grammar. The result is the ability to converse in a foreign language.

SPANISH I FOR NATIVE SPEAKERS

NCAA

Credits: 10
CSF I

Grade: 9 - 12
UC/CSU: E

In this course, native speakers develop intermediate skills in the Spanish language: the ability to read, understand and communicate effectively and in writing by working with beginning and intermediate grammatical structures. Special emphasis is placed on the importance of developing standard language skills, avoiding anglicisms and improper Spanish. Special attention will also be given the reading intermediate literature and a cultural study of the Hispanic World. This course has a secondary aim to prepare all students for Spanish II for native Speakers. This class is conducted solely in Spanish.

Prerequisite: C or better in English

SPANISH II FOR NATIVE SPEAKERS

A-G

NCAA

Credits: 10
CSF I**Grade:** 9 - 12
UC/CSU: E

In this course, native speakers develop advanced skills in the Spanish language: the ability to read, understand and communicate effectively and in writing by working with intermediate and advanced grammatical structures. This course emphasizes the importance of advanced language skills, avoiding anglicisms and improper Spanish. Special attention is also given the reading advanced literature and cultural studies of the Hispanic World. This course has a secondary aim to prepare all students for AP Spanish Language and Culture course. This course does not prepare students to take the AP examination at the end of the year. This class is conducted solely in Spanish.

Prerequisite: C or better in Spanish I for Spanish Speakers

SPANISH I

A-G

NCAA

Credits: 10
CSF I**Grade:** 9 - 12
UC/CSU: E

Spanish I includes; listening, speaking, reading, and writing with emphasis on vocabulary expansion and the study of Hispanic culture. Grammar includes present tense and present progressive tenses.

Prerequisite: At least a “C” in English all year. Teacher signature required.

SPANISH II

A-G

NCAA

Credits: 10
CSF I**Grade:** 9 - 12
UC/CSU: E

Spanish II includes listening, speaking, reading, and writing with emphasis on vocabulary expansion and a continuation of the study of Hispanic culture. Grammar includes affirmative and negative commands, preterite, imperfect tense and present subjunctive.

Prerequisite: “C” in Spanish I, teacher signature required.

SPANISH III

A-G

NCAA

Credits: 10
CSF I**Grade:** 9 - 12
UC/CSU: E

Spanish III is an in-depth course that will review and study many of the same topics presented in Spanish I and II but to a greater degree. Emphasis is on communicating in Spanish through speaking, listening, reading, and writing in various aspects of time (verb tenses). Speaking, writing, and reading skills will expand as the students are challenged with the language. Students will participate in individual, paired, and group activities as well as complete written and oral exercises to practice new vocabulary and grammar concepts at all times. The primary focus will be to increase the student’s ability to communicate in Spanish with ease and confidence; this will depend greatly on effort and how well each student is prepared.

Prerequisite: “C” in Spanish II, teacher signature required.

SPANISH IV

A-G

NCAA

Credits: 10
CSF I**Grade:** 9 - 12
UC/CSU: E

This course is a survey of Spanish literature comprising short stories, poems, essays, and novels. Emphasis is placed on developing a cultural and historical background from which to appreciate literature and the arts. Students discuss and write essays about the literature they read, further developing oral, written, and cultural fluency.

Prerequisite: “C” in Spanish III, teacher signature required. For freshmen, grade of “C” or better in previous year’s English class.

AP SPANISH LANGUAGE

Weighted

NCAA

Credits: 10
CSF I

Grade: 10-12
UC/CSU: E

This is an advanced placement (AP) class integrating the understanding, speaking, reading, and writing of the Spanish language. This course provides college units earned by passing the AP examination offered each year in May. This is an advanced class. Students wishing to take this class must be prepared for daily participation in conversational Spanish, and daily writing, listening, and reading activities in order to better prepare themselves for the examination. This class is conducted in Spanish only.

Prerequisite: “C” grade or better in Spanish IV or C grade of better in Spanish II Native Speakers. Teacher signature required. Must have earned a grade of “C” or better in English II.

FRENCH I

NCAA

Credits: 10
CSF I

Grade: 9 - 12
UC/CSU: E

This course is intended to develop beginning facility in the major skill areas: reading, writing, listening, and speaking. Students communicate using basic vocabulary in a range of authentic contexts. Conversational and writing activities incorporate expression in the present and past tenses. Projects are designed to foster appreciation of French and French-speaking cultures.

Prerequisite: At least a “C” in English all year. Teacher signature required.

FRENCH II

NCAA

Credits: 10
CSF I

Grade: 9 - 12
UC/CSU: E

This course provides further instruction and practice in conversation, listening, and reading comprehension, paragraph writing, and cultural projects. Students comprehend and use a more expanded vocabulary incorporating present, past, and imperfect tenses as well as demonstrate an increased understanding of Francophone cultures through role-play and other projects.

Prerequisite: “C” in French I, teacher signature required.

FRENCH III

NCAA

Credits: 10
CSF I

Grade: 11 - 12
UC/CSU: E

This third-year course incorporates stories and articles about history, geography, and other cultural studies to further develop reading comprehension. Students write short essays and continue to do written and oral projects emphasizing the arts and culturally relevant daily activities.

Prerequisite: “C” in French II, teacher signature required.

FRENCH IV

NCAA

Credits: 10
CSF I

Grade: 11 - 12
UC/CSU: E

This course is a survey of French literature comprising short stories, poems, essays, and novels. Emphasis is placed on developing a cultural and historical background from which to appreciate literature and the arts. Students discuss and write essays about the literature they read, further developing oral, written, and cultural fluency.

Prerequisite: “C” in French III, teacher signature required.

Oakdale Joint Unified School District

Mathematics

All courses in this section fulfill one year of math credit towards graduation. Students are required to complete three years (30 credits) of three different math courses including Math I or Math A and B.

Course Offerings

- Math Readiness 12035
- Math A 12045
- Math B 12046
- Math I Accel 12057
- Math I 12051
- Math II 12066
- Math II Accl 12071
- Math III 12077
- Math III Accl 12082
- Exploring Geometry 12060
- Pre- Calculus 12081
- AP Calculus - AB 12090
- AP Calculus - BC 12095
- AP Statistics 12085
- Finite Math 12083

CALCULUS AP – AB

Weighted

NCAA

Credits: 10

CSF I

Grade: 11 - 12

UC/CSU: C

This course is designed according to the advanced placement curriculum that includes limits, derivatives, integrals, and their applications. College units may be earned by passing the AP exam offered in May.

Prerequisite: 11th /12th Grade Standing, “B” or better in Pre-Calculus both semesters or Math III Accl and teacher signature required.

CALCULUS AP- BC

Weighted

NCAA

Credits: 10

CSF I

Grade: 12

UC/CSU: C

This course is designed according to the advanced placement curriculum. It continues the application of limits, derivatives, integrals, and how they apply to polar equations, parametric equations, sequences and series. This is the traditional 2nd course of College Calculus. College units may be earned by passing the AP exam offered in May.

Prerequisite: 12th Grade Standing and “C” or better in Calculus AB.

MATH READINESS

Credits: 10

Grade: 9 – 9
UC/CSU:

This is a course designed to prepare students for the rigors of the integrated math pathway. This course does not meet the UC a-g requirements but does meet high school math requirement. Successful completion of this course and performance at a high level will allow students to continue onto UC a-g math course requirements (Math 1). This course meets one year of the three year math requirement needed for graduation.

Prerequisite: (Restricted Enrollment) Based on the placement procedure of the junior high and performance on District Math Assessment. Teacher signature required.

MATH I

NCAA

Credits: 10
CSF I

Grade: 9 – 12
UC/CSU: C

This course is the entry level Mathematics course. Along with Math II and Math III students will complete the equivalent coursework to Algebra I, Geometry, and Algebra II. This course includes standards from conceptual categories of Number and Quantity, Algebra, Functions, Geometry, and Statistics and Probability.

Prerequisite:

MATH I ACCELERATED

NCAA

Credits: 10
CSF I

Grade: 9 – 12
UC/CSU: C

This course is an accelerated entry level Mathematics course that includes the concepts presented in Math 1 as well as one unit from Math 2. This course includes standards from conceptual categories of Number and Quantity, Algebra, Functions, Geometry and Statistics and Probability. This course will prepare students to take Math 2 Accelerated. This course meets the UC/CSU a-g math requirements as well as one year of the three year math requirement needed for graduation.

Prerequisite: Meet minimum proficiency on District Math Assessment and placement procedure of the junior high. Teacher signature required.

STATISTICS-AP

Weighted

NCAA

Credits: 10
CSF I

Grade: 11 – 12
UC/CSU: C

The purpose of the advanced placement course in statistics is to introduce students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data. Students are exposed to four broad conceptual themes: exploring data, planning a study, anticipating patterns, and statistical inference. This class prepares students to take the advanced placement test. College units may be earned by passing the AP exam that is given in May.

Prerequisite: Seniors may take this course after completion of Algebra II or Math III. Juniors may take this course concurrently with Pre-Calculus only with permission of teacher and department chair.

PRE-CALCULUS

NCAA

Credits: 10
CSF I

Grade: 10 - 12
UC/CSU: C

This course uses graphing calculators and computers in the study of pre-calculus topics and trigonometric functions.

Prerequisite: “C” in Math III both semesters and teacher signature.

MATH II

NCAA

Credits: 10
CSF I

Grade: 9 – 12
UC/CSU: C

This course is the second course offered in our integrated math program. Along with Math I and Math III students will complete the equivalent coursework to Algebra 1, Geometry, and Algebra 2. This course includes additional standards from the conceptual categories of Number and Quantity, Algebra, Functions, Geometry, and Statistics and Probability.

Prerequisite: C or better in Math I

MATH II ACCELERATED

NCAA

Credits: 10
CSF I

Grade: 9 – 12
UC/CSU: C

This course is the second accelerated Mathematics course which includes concepts presented in Math 2 as well as 2 units of material from Math 3. This course includes standards from conceptual categories of Numbers and Quantity, Algebra, Functions, Geometry and Statistics and Probability. This course will prepare students to take Math 3 Accelerated. This course meets the UC/CSU a-g math requirements as well as one year of the three year math requirement needed for graduation.

Prerequisite: Successful completion of Math 1 Accelerated and teacher approval.

MATH III

NCAA

Credits: 10
CSF I

Grade: 10– 12
UC/CSU: C

This course is the third course offered in our integrated math program. Along with Math I and Math II students will complete the equivalent coursework to Algebra 1, Geometry, and Algebra 2. This course includes additional standards from the conceptual categories of Number and Quantity, Algebra, Functions, Geometry, and Statistics and Probability.

Prerequisite: C or better in Math II

MATH III ACCELERATED

NCAA

Credits: 10
CSF I

Grade: 10 – 12
UC/CSU: C

This course includes standards from conceptual categories of Numbers and Quantity, Algebra, Functions, Geometry and Statistics and Probability as well as pre-calculus and trigonometry concepts. This course will prepare students to access AP courses offered at OHS (AP Calculus AB, AP Calculus BC and AP Statistics). This course meets the UC/CSU a-g math requirements as well as one year of the three year math requirement needed for graduation.

Prerequisite: Successful completion of Math II Accelerated and teacher approval.

FINITE MATH

NCAA

Credits: 10
CSF I

Grade: 12
UC/CSU: C

This course is a general survey of mathematical topics that are useful in our contemporary world. The topics consist of, but are not limited to systems of equations, mathematics of finance, matrices and their applications, linear programming, introduction to probability and statistics, logic, voting methods, graph theory, and decision making.

Prerequisite: Seniors who have completed Math III. This course is not recommended for students that have completed Pre-Calculus.

MATH A

Credits: 10
NCAA (.75 CR)

Grade: 9-12
UC/CSU:

Math A is the first semester of the yearlong Math I course. This course meets the UC a-g semester one Math I requirement. Students enrolled in Math A can expect to take four years of math in order to meet the UC/CSU a-g math requirement.

Prerequisite: Teacher recommendation for a four-year math pathway. Based on the placement procedure at the junior high including performance on District Math Assessment.

MATH B

Credits: 10
NCAA (.75 CR)

Grade: 10-12
UC/CSU: C

Math B is the second semester of the yearlong Math I course. This course meets the UC a-g semester two Math I requirement. Students enrolled in Math B can expect to take four years of math in order to meet the UC/CSU a-g math requirement.

*This course has been submitted for the CSU and UC 'C' mathematics college entrance requirements.

Prerequisite: Successful completion of Math A or teacher recommendation.

EXPLORING GEOMETRY

Credits: 10
CSF III

Grade: 10-12
UC/CSU:

This course covers the basic concepts of geometry using an informal approach. Investigations and constructions will be used to discover and develop geometric relationships. Topics will include parallel and perpendicular, congruent triangles, polygons, circles, area, and volume. This course satisfies one year of the three-year math requirement for graduation. This course does not meet A-G admission requirements for UC/CSU.

Prerequisite: Open to students that have attempted the equivalent of Math I or Math A and B.

Oakdale Joint Unified School District

Physical Education

All freshmen are required to take General P.E. fall and spring of their freshman year with the exception of Band, Colorguard, Drumline (which only receives Fall Semester PE credit), and Frosh Football Conditioning. Two years of PE are required for graduation. Students who have not completed all PE requirements by their senior year will be placed in regular PE class even if they are planning to do a sport their senior year.

- Athletic shoes are required. No flip flops or boots of any kind are acceptable.
- PE bottoms should be either OHS shorts or sweats, or plain (no stripes or words) cherry red or black athletic shorts.
- PE tops should be OHS shirt and/or sweatshirt, or plain (no stripes or words) black or white shirt.
- T-shirts cannot be sleeveless; sweats and sweatshirts are optional, but recommended on cold days and must meet the same PE clothing requirements.
- PE clothing may be purchased at the Oakdale High School Business Office. Please plan ahead; PE clothing will be required the first week of school.

GENERAL PHYSICAL EDUCATION FRESHMEN

Credits: 10

Grade: 9
UC/CSU:

Physical Education 9 places an emphasis on health-related fitness and developing the skills and habits necessary for a lifetime of activity. This program includes skill development and the application of rules and strategies in a variety of the following different movement forms: (1) health-related fitness activities (cardio respiratory endurance, muscular strength and endurance, flexibility, and body composition), (2) aerobic exercise, (3) team sports, (4) individual and dual sports, (5) aquatics, (6) dance, and (7) recreational games. Ongoing assessment may include written, skill, and performance-based evaluations.

Prerequisite:

GENERAL PHYSICAL EDUCATION SOPHOMORE - SENIORS

Credits: 10

Grade: 10 - 12
UC/CSU:

In this course, students have the opportunity to participate, receive instruction, and develop skills in badminton, tennis, weight training, physical fitness, softball, volleyball, basketball, touch football, and soccer.

Prerequisite:

AEROBICS

Credits: 10

Grade: 10 - 12
UC/CSU:

This course is designed to improve both the students' knowledge of health and fitness, as well as their level of physical fitness. Students will be introduced to various aerobic exercises and learn how they can contribute to a lifetime of fitness. Areas of focus will include both teacher and student led aerobics, yoga, dancing, zumba, and general fitness. Students will become familiar with a wide range of dances and routines. All levels of fitness are welcome.

Prerequisite: B or better in 9th grade PE or instructor approval

COLORGUARD/WINTERGUARD

Credits: 5

Grade: 9 - 12
UC/CSU:

This unit performs with the marching band during the fall and enters competitions in winter and spring. Students learn flag, rifle, sword, and banner technique as well as dance. Much time is required outside of class for rehearsal and performance. Students will combine and apply movement patterns to music, simple to complex, both as individuals and in groups. The physical self-awareness of biomechanics is learned throughout the year. Forty-two hours of physical activity in the form of marching, calisthenics and drills (aesthetic and combative) are incorporated into the musical performances throughout the fall and spring semester.

This course earns one semester of PE credit per school year.

Prerequisite: Students must meet GPA and disciplinary eligibility requirements upon entry.

HEALTH

Credits: 5
CSF III

Grade: 9 - 12
UC/CSU:

This is a required one-semester course for all freshmen. The course content is divided into two areas: 1) family life and sex education and 2) drug/alcohol abuse. Family life covers aspects of developing sexuality, physiology and anatomy, sex roles, contraception, decision-making, venereal disease, and birth delivery. Drug and alcohol abuse covers specific drugs and their affects as well as the decision-making and values involved in drug use and abuse. This is a required Freshman class.

Prerequisite:

STRENGTH TRAINING and CONDITIONING

Credits: 10

Grade: 10-12
UC/CSU:

This course is designed to meet the needs of students who are trying to improve their individual strength and fitness. The majority of work in this class takes place in the weight room. Athletes who are trying to get stronger and students who are interested in improving their fitness levels should consider this class. From time to time students in this class play team, individual, and aquatic sports as a change of pace.

Prerequisite: C or better in 9th grade PE or instructor approval

ATHLETIC WEIGHT TRAINING (Sports “0” Period)

Credits: 10

Grade: 11-12
UC/CSU:

Weight training teaches students the proper way to lift weights to develop the strength and size of the skeletal muscle. Weight training uses a variety of specialized equipment to target specific muscle groups and types of movements.

Prerequisite: Permission from sports coach required.

ATHLETIC PE (10-12 Grade Sports)

Credits: 10

Grade: 10-12
UC/CSU:

This is participation in the competitive school sports program. The sport calendar is divided into three seasons—fall, winter, and spring. Students may participate in one sport each season and earn a maximum of ten credits for two sports. Cheerleading counts for ten credits and meets throughout the school year.

Prerequisite: Enrollment and completion of OHS after-school sports for grades 10-12.

BAND, MARCHING / SYMPHONIC

Credits: 10
CSF III

Grade: 9 - 12
UC/CSU: F

These courses are designed for students to rehearse and perform quality musical literature for concert and marching performance. Emphasis is placed on developing correct playing and performance techniques as well as basic music theory. Much extra time outside of school is required. Students will combine and apply movement patterns to music, simple to complex both as individuals and in groups. The physical self-awareness of biomechanics is learned throughout the year. Forty-two hours of physical activity in the form of marching calisthenics and drills are incorporated into the musical performance throughout the fall semester. Students must enroll in both semesters unless transferring to OHS midyear from another school. For freshmen through seniors, students will earn one year of PE credits.

Prerequisite: Previous experience in band is needed. Students must meet GPA and disciplinary eligibility requirements upon entry.

DRUMLINE (Percussion Ensemble)

Credits: 5/5
CSF III

Grade: 9 – 12
UC/CSU: F

Students in this course learn techniques and perform percussion ensemble music both as part of the larger OHS Marching Band and concert band, and as part of a unique Percussion Ensemble. In addition to performing on a wide variety of percussion instruments, the students will learn the theory and history of the music performed. Performances and extra-curricular practices are scheduled as needed by the band director. Students will combine and apply movement patterns to music, simple to complex both as individuals and in groups. The physical self-awareness of biomechanics is learned throughout the year. Forty-two hours of physical activity in the form of marching calisthenics and drills are incorporated into the musical performance throughout the fall semester. The course may be repeated for additional credit. This course may be offered in the same section as other band courses. For freshmen through seniors, fall semester will go toward PE credits (until the PE req. has been met) and spring semester credits will go toward VAPA.

Prerequisite: Teacher approval is needed. Students must meet GPA and disciplinary eligibility requirements upon entry.

FROSH ATHLETIC CONDITIONING

Credits: 10

Grade: 9
UC/CSU:

Perspective varsity athletes, focus on weight training, conditioning, and athletic skills. Using all gym, weight room, track and sports specialized equipment to target specific muscle groups and sports specific skills.

Prerequisite: Permission from sports coach required.

Science

SCIENCE CURRICULUM

By its very nature, science is a hands-on, inquiry-based subject incorporating measurement and mathematics, written and oral communication, and cooperative effort to use evidence in solving various problems through investigations and experiments. Students study simple models of complex or abstract systems. With the aid of technology, students make observations, measurements, calculations, drawings, and models in order to communicate ideas in presentations, demonstrations, and written reports. The science curriculum is rich with experience helping students understand the universe around and within them and to make responsible decisions based on facts

ANATOMY AND PHYSIOLOGY

2 + 2

NCAA

Credits: 10

CSF I

Grade: 10– 12

UC/CSU: D

This articulated 2 + 2 course is offered through Modesto Junior College in partnership with Oakdale High School. Participating students may acquire MJC college units as well as high school credits after successfully completing the course requirements and achieving an overall grade of “B” or better. This is a college-level course for able and motivated juniors and seniors and is particularly useful for students planning to pursue careers in health or biology-related professions. Course requirements include class work in anatomy, physiology, nutrition, bioethics, and successful participation in all lab activities and all dissections including cat dissection. Fulfills one-year graduation requirement for life science..

Prerequisite: “C” or higher in Biology CP, concurrent enrollment in Math II or higher math, teacher signature required.

BIOLOGY AND THE LIVING EARTH

A-GCredits: 10
NCAAGrade: 9-12
UC/CSU: D

“Biology and the Living Earth” will explore biological and earth science concepts from a phenomenon-based approach. In this lab-based NGSS course, we will incorporate the performance expectations of ‘life science’ and ‘earth and space science’ to deepen student understanding of life on Earth and the interactions between the biotic and abiotic systems. Students will connect cross-cutting concepts and utilize science and engineering practices to explain natural phenomena.

CHEMISTRY IN THE EARTH SYSTEM

A-GCredits: 10
NCAAGrade: 9-12
UC/CSU: D

Chemistry is a sequential, hierarchical science that is descriptive and theoretical. Chemistry requires high-level problem-solving skills, such as designing experiments and solving word problems. For students to learn concepts of chemistry, they must learn new vocabulary, including the rules for naming simple compounds and ions. Students will discover and be able to explain the nature of matter and its transformations when they study atomic and molecular structure, the effects of electron interaction, chemical bonds, and stoichiometry. Additionally, students will study the properties of gases, acids and bases, solutions, and organic and inorganic compounds. Students will also explore chemical systems as they study solutions, reactions, and nuclear processes.

In this NGSS-aligned Chemistry in the Earth System course, students will utilize various Crosscutting Concepts and Science and Engineering Practices as they explore how chemical processes of matter and energy help drive the Earth system within the universe. The integration of Earth and Space Sciences (ESS) into Chemistry allow for the investigation of phenomena that range in scale from the unimaginably large to the invisibly small. Earth and space science applications, such as cosmology, material science, environmental chemistry and climate change, are excellent motivations to the study of physical laws and are used as a through line in this chemistry course.

PHYSICS

A-G

NCAA

Credits: 10
CSF IGrade: 11-12
UC/CSU: D

This course is highly recommended for students whose college work is likely to include the sciences. This is a guided-inquiry based survey of physics topics including mechanics, statics, electricity, magnetism, heat, sound and light. Standards based coursework emphasizes critical thinking skills by including careful observations of events and building quantitative models to describe the observations. This course fulfills the one year physical science requirement for graduation and the physical science requirement for CSU/UC admission eligibility.

Prerequisite: Concurrent enrollment in Math II or higher, “C” or higher in Chemistry or Anatomy/Physiology or teacher approval.

AP BIOLOGY

A-G

NCAA

Credits: 10
CSF IGrade: 11-12
UC/CSU: D

This AP course is equivalent to a one-year introductory college biology course taken by first year science majors. Students who pass the AP test may earn college credit. Topics of study in this lab-heavy course will revolve around evolution and diversity, energy dynamics and utilization, biological system interaction. Summer work and Saturday sessions will be required. This course fulfills the one-year life science graduation requirement.

Prerequisite: May be taken concurrently with other science course with teacher approval.

Oakdale Joint Unified School District

Social Science

SOCIAL STUDIES CURRICULUM

Social studies courses at Oakdale High are organized to be in alignment with the California State Standards. The class required for all sophomores is world history; for juniors is United States history; and for seniors are one semester of U. S. government and one semester of economics.

The social studies department incorporates a variety of instructional strategies in order to appeal to the interests of every student. Each class is designed to provide students with the state-required curriculum and to help students succeed in the classroom and on state mandated tests. Other goals are to help students succeed in the classroom and improve analytical skills which can be applied to all courses taken in school

Course Offerings

- World History 11520
- AP European History 11525
- United States History 11530
- AP United States History 11535
- American Government and Economics 11550/11551
- AP American Government and Economics 11557
- Social Psychology 11570
- AP Psychology 11575

WORLD HISTORY

NCAA

Credits: 10
CSF I

Grade: 10
UC/CSU: A

This course satisfies the required social studies course for the tenth grade. The curriculum covers the mandated California State Standards at the sophomore level—roughly from the Renaissance period of the 15th century to modern world history. Historical study covers the cultural, social, political, and economic changes of the “modern world.”

Prerequisite:

EUROPEAN HISTORY AP

NCAA

Credits: 10
CSF I

Grade: 10 – 12
UC/CSU: A

Weighted

Designed to teach students to successfully pass the advanced placement exam given in May, students enrolled in AP European History can expect a year of intensive study in world affairs. Focusing on the Renaissance era through modern twentieth century events, students will survey major political, social, and economic changes in European History. Students must receive recommendation from current 9th grade English teachers, perform successfully on a sample exam, and sign a parent/student contract agreeing to take the AP exam in May. This course will satisfy the required year of study in World History. Students who have already taken World History may also take this course.

Prerequisite: 10th grade standing required. English teacher recommendation, exam, AP exam contract.

US HISTORY

NCAA

Credits: 10
CSF I

Grade: 11
UC/CSU: A

This course satisfies the required social studies course for the eleventh grade. The curriculum covers the mandated California State Standards at the junior level. There is a brief review of the colonial, revolutionary, and Civil War period, with intensive study beginning in the Reconstruction era and ending with modern issues in American society.

Prerequisite:

US HISTORY AP

NCAA

Credits: 10
CSF I

Grade: 11
UC/CSU: A

Weighted

Designed to teach students to successfully pass the national advanced placement exam given in May, students enrolled in AP U. S. History can expect a year of intensive study in the history of the United States. It is a college-level course that explores the major themes in United States history from pre-Columbian times to the early 21st century. Students must possess a high degree of motivation and will be expected to undertake self-guided outside reading in addition to other requirements of the course. Additionally, extensive critical thinking and college-level writing requirements are incorporated into the course curriculum. Students can earn college units by passing the national AP exam.

Prerequisite: 11th grade standing required. The student must pass a teacher-generated test and also complete an extensive written summer project.

US GOVERNMENT/ECONOMICS

NCAA

Credits: 5/5
CSF I

Grade: 12
UC/CSU: A/G

U.S. Government and Economics courses are each one semester-long, and together they satisfy the California mandated required social studies courses for the 12th grade. The courses study the foundations and institutions of our constitutional government and market economy. One embedded focus for each course is on participatory skills necessary for responsible citizenship in our democratic society and our free market system. The curriculum covered follows the California State Standards for senior social studies students.

Prerequisite:

US GOVERNMENT AND POLITICS AP

Credits: 10
CSF I

Grade: 12
UC/CSU: A

Weighted

NCAA

Designed to teach students to successfully pass the national advanced placement exam in May, this yearlong course will provide an in-depth look at the foundations of our Constitutional Government, the Congress, the President, the Court System, and much more. The first quarter of the course primarily focuses on the study of economics. Students must possess a high degree of motivation and will be expected to undertake guided outside reading in addition to other requirements of the course. Students can earn college units by passing the national AP exam. Please note: This course is a year-long class and counts for government and economics credit required for graduation.

Prerequisite: 12th grade standing only. The student must pass a teacher-generated test and also complete an extensive written summer project.

SOCIAL PSYCHOLOGY

Credits: 10
CSF II

Grade: 11 – 12
UC/CSU: G

NCAA

This is an elective course for students who want to develop an elementary understanding of psychology—the scientific study human behavior and mental processes. Secondly, the course is designed to help students learn the basic elements of sociology—the scientific study of how humans interact with each other within societies. Topics include a brief history of psychology, the psychological profession, human learning, how the mind and body work together, the psychological aspects of the human lifespan, altered states of consciousness, stress and behavior, psychological disorders, psychological therapy, and basic sociology.

Prerequisite: 3.0 grade point average or permission of the instructor

PSYCHOLOGY AP

Credits: 10
CSF II

Grade: 11 – 12
UC/CSU: G

Weighted

NCAA

Designed to teach students to successfully pass the national advanced placement exam in May, this is a college-level course for students who want to develop an understanding of the scientific study of human behavior and the mental processes. Topics include: the history of psychology, psychological research techniques, the central and peripheral nervous systems, sensation and perception, altered states of consciousness, how people learn, how human memory works, motivation and emotion, human development through the standard lifespan, personality theory, psychological testing, the effects of stress on humans, psychological disorders, psychotherapy, and social psychology. College units may be earned by passing the AP exam offered in May.

Prerequisite: 11th or 12th grade standing required, 3.0 cumulative GPA or permission of instructor. Summer project required.

Special Education

Math A Skills	Math B Skills	Exploring Geom	

ACADEMIC LITERACY I, II, III, IV

Credits: 10

Grade: 9 – 12
UC/CSU:

These courses provide small group instruction for students who qualify for services through their Individualized Education Program. The class is designed to support academic instruction in the general education setting for all core academic classes. The focus of the class is to expose students to reading strategies and individual learning styles which are designed to help students identify key information within grade-level text to support them in solving math problems, finding key ideas for history, science and English classes. A case manager is also assigned to monitor student progress throughout the calendar school year.

Prerequisite: Placement in this class is determined through the IEP team with signatures from the special education teacher, a general education teacher, administration, counselor, parent, student, and the school psychologist.

BASIC PHYSICAL SCIENCE

Credits: 10
CSF III

Grade: 9 – 12
UC/CSU:

This course is designed to give students a working knowledge of basic physical science and may be repeated for elective credit. Only students placed through an I.E.P. process may take this class.

Prerequisite: Placement in this class will be determined by I.E.P. Teacher signature required.

BASIC LIFE SCIENCE

Credits: 10
CSF III

Grade: 9 – 12
UC/CSU:

This course is designed to give students a working knowledge of basic life science and may be repeated for elective credit. Only students placed through an I.E.P. process may take this class.

Prerequisite: Placement in this class will be determined by I.E.P. Teacher signature required.

BASIC ENGLISH I, II, III, IV

Credits: 10
CSF III

Grade: 9 – 12
UC/CSU:

This course provides individual and group direct instruction in basic reading, spelling, and writing. Phonics is emphasized. Only students meeting specific criteria may be placed in this course and must be placed through an I.E.P. process. These courses may be repeated for credit.

Prerequisite: Placement in this class will be determined by I.E.P. Teacher signature required.

BASIC HEALTH / VOCATION

Credits: 10
CSF III

Grade: 9 – 12
UC/CSU:

This course is designed to give students an awareness of their health and how to live a healthy lifestyle. It also helps students to be aware of and take an active participation in their health. Students hear guest speakers, explore different career paths, practice writing resumes, completing job applications, and interviewing for jobs. Only students placed through an I.E.P. process may take this class.

Prerequisite: Placement in this class will be determined by I.E.P. Teacher signature required

ADAPTIVE PHYSICAL EDUCATION

Credits: 10

Grade: 9 – 12
UC/CSU:

This course is designed to help students with special physical needs and individual physical education problems. Only students placed through the I.E.P. process may take this class and may repeat the class for credit.

Prerequisite: Placement in this class will be determined by I.E.P. Teacher signature required.

BASIC WORLD HISTORY

Credits: 10
CSF III

Grade: 10 – 12
UC/CSU:

This course is designed to give students basic knowledge of World History. Prehistoric to modern history of the world emphasizing major areas of development will be studied. Only students placed through an I.E.P. process may take this class. This course may be repeated for elective credit.

Prerequisite: Placement in this class will be determined by I.E.P. Teacher signature required.

BASIC US HISTORY

Credits: 10
CSF III

Grade: 10 – 12
UC/CSU:

This course is designed to give students basic knowledge of U.S. History from Columbus to the present. Relevant concepts that have helped to shape our nation will be analyzed. Only students placed through an I.E.P. process may take this class.

Prerequisite: Placement in this class will be determined by I.E.P. Teacher signature required.

BASIC MATH

Credits: 10
CSF III

Grade: 9 – 12
UC/CSU:

This course offers individual and group instruction in basic math skills and consumer math and is designed to improve students' basic skill levels. Only students placed through an I.E.P. process may take this course, and this course may be repeated for credit.

Prerequisite: Placement in this class will be determined by I.E.P. Teacher signature required.

MATH A SKILLS

Credits: 10

Grade: 9 - 12
UC/CSU:

This course is a year long course that will cover the first semester of Math I. This course along with Math B skills and Math C skills will meet the Algebra requirement for graduation.

Prerequisite: This course will be restricted to students in the Special Education Program.

MATH B SKILLS

Credits: 10

Grade: 10 - 12
UC/CSU:

This course is a year long course that will cover the second semester of Math I. This course along with Math A Skills will meet the Algebra requirement for graduation.

Prerequisite: This course will be restricted to students in the Special Education Program.

BASIC ENGLISH I-IV

Credits: 10
CSF III

Grade: 9 – 12
UC/CSU:

Prerequisite: Placement in this class will be determined by I.E.P. Teacher signature required

Oakdale Joint Unified School District Visual and Performing Arts

Unless otherwise noted, all of these courses fulfill one year of the Visual & Performing Arts requirement for graduation and may be repeated for credit. Also meeting the graduation requirement for Visual and Performing Arts are Architectural Design I & II, AP Art History, and Floral Design.

FINE ARTS CURRICULUM

Fine art classes provide a well-rounded educational experience. The curricula for OHS art courses are based on the four focuses of the California fine arts standards: Perceiving and understanding what is art. Connecting to cultural heritage Hands-on creative expression. Aesthetic valuing - the assessment of products by students and teacher

To incorporate all of this, art classes are based on a chronological approach starting with pre-historic art. This chronological approach is intended to integrate and make connections to literature and to historical and scientific ideas. Class instruction focuses on teaching line, shape, color, texture, and how it all comes together in composition. Throughout these courses, students are exposed to art history, studying famous practitioners of each type of art.

DRAMA CURRICULUM

Drama students experience all aspects of theatre necessary for live production. These elements include acting, directing, lighting, set construction, makeup, and house management. Students evaluate scripts, memorize lines, make creative choices/decisions, and perform/produce scenes and plays.

Perhaps most important, however, are the experiences from theatre which relate to all facets of the students' future lives. These include voice enunciation and projection, group interaction and cooperation, creative thought, analysis of written and spoken word, and perhaps most important, audience skills. These are reinforced on a daily basis and can be used for success by students immediately as well as in the future.

MUSIC CURRICULUM

For students who have instrumental or vocal talents and interests, the Music department provides an opportunity to develop those interests and skills. The various groups perform traditional as well as contemporary and pop music. They perform several concerts during the year and support various community activities with performances. The groups travel outside of Oakdale to perform in various parades and music festivals. Students in music may also be involved in sports, leadership, and other school activities.

Career Opportunities

Director	Designer	Marketing	Film Editor

VISUAL ART I

Credits: 10
CSF III

Grade: 9 - 12
UC/CSU: F

This is a beginning course that introduces students to the elements of art through two-dimensional projects. Techniques include drawing and design using line, shape, color, texture, and composition. Projects originate from diverse cultures around the world and throughout history.

Prerequisite:

VISUAL ART II, III, IV

Credits: 10
CSF III

Grade: 10 - 12
UC/CSU: F

Students will explore in-depth projects using a variety of techniques and materials. Painting, drawing, and sculpture are introduced.

Prerequisite: Successful completion of Visual Art I with a C grade or higher.

DRAWING I

Credits: 10
CSF III

Grade: 9 - 12
UC/CSU: F

This course teaches the skills of realistic representation using the tools for composition on paper including pencil, charcoal, and pen and ink. The course will focus on training students to see as an artist and transfer that new ability to shape, texture, line, color, and form on paper. Success will require patience, concentration, and attention to detail.

Prerequisite:

DRAWING II

Credits: 10
CSF III

Grade: 10- 12
UC/CSU: F

This is an advanced drawing course that will build on the foundations explored in Drawing I. Color will be introduced as well as a number of projects involving illustration. Focus will be on creating and designing artwork at an advanced level while maintaining a high level of quality.

Prerequisite: Previous experience in art, successful completion of Drawing I, Visual Art I, II, III, or IV with a C or higher. Teacher signature required.

DRAWING III

Credits: 10
CSF III

Grade: 11- 12
UC/CSU: F

This is an advanced drawing and illustration course for students demonstrating advanced skill building in Drawing I and II and focuses on the skills of realistic representation using the tools for composition on paper. This course will allow students to see as an artist and transfer that new ability to shape, texture, line, color, and form. Artwork will be produced which shows individual creativity and problem solving ability. Students will experience art production, artistic philosophy, art criticism, and art history. Students will be expected to display superior responsibility and leadership by facilitating groups, introducing lessons to beginners, and acting as an art mentor to beginners and intermediate students.

Prerequisite: Drawing I and II or Visual Art I, II, and III with a C or higher. Teacher signature required.

AP STUDIO ART

Credits: 10
CSF III

Grade: 11 – 12
UC/CSU: F

Weighted

Students will complete 15 works of art, and process documentation, that demonstrate sustained investigation through practice, experimentation, and revision. Students will explore themes, write, reflect, and communicate ideas verbally and visually. Portfolios are compiled and submitted to Collegeboard. Quality of work is essential for students to receive a 5, 4, or 3 for college credit.

Prerequisite: 11th or 12th grade standing. Successful completion of Visual Art I with a C grade or higher.

ART HISTORY AP

Credits: 10
CSF II

Grade: 11 – 12
UC/CSU: F

Weighted

The purpose of this course is to survey the artistic worlds of both non-European and European cultures. Students will view and analyze the art, sculptures, and architecture of these cultures. The course curriculum is designed to aid students in successfully passing the AP test in May. This course will serve as an academic elective to students who wish to be competitive in the post-secondary application process.

Prerequisite: 11th or 12th grade standing required. Successful completion of World History or AP European History.

CERAMICS

Credits: 10
CSF III

Grade: 9 - 12
UC/CSU: F

Students learn all facets of ceramics in this class. There are six major objectives:

1. To experience the tactile characteristics of clay and know its capabilities.
2. To gain a broad knowledge of past cultures and their heritage through their clay forms.
3. To become proficient in the hand building techniques.
4. To have an introductory experience using the kick wheel.
5. To understand ceramic design, form and function.
6. To acquire a basic familiarization of techniques and the firing of ceramic ware.

Prerequisite:

ADVANCED CERAMICS

Credits: 10
CSF III

Grade: 10 - 12
UC/CSU: F

Ceramics I with a “B” and teacher signature required.

There are four major objectives for students taking this course:

1. To advance individual skills in hand techniques and pottery wheel.
2. To investigate the glaze application more completely and learn to execute glaze recipes.
3. To establish detailed knowledge of the firing process.
4. To increase an awareness of a ceramic form, decoration, and function as integral components of a completed work of art.

Prerequisite: Ceramics I with a “B” and teacher signature required.

INTRODUCTION TO MUSIC PERFORMANCE

Credits: 10
CSF III

Grade: 9-12
UC/CSU: F

This is a production-oriented course covering all aspects of live theater including acting, directing, set construction, makeup, lighting, costuming, and design. Students will be required to memorize lines and present scenes on stage.

Prerequisite:

ADVANCED DRAMA

Credits: 10
CSF III

Grade: 10 - 12
UC/CSU: F

This is a performance-oriented course covering all aspects of live theater including acting, directing, lighting, set construction, stage makeup, costuming, publicity, and performance. Students participate in and produce plays to be offered to student groups on campus and the general public. A study of dramatic literature is included. Extra time outside of school is required.

Prerequisite: Successful completion of Intro to Drama, and teacher signature required.

SHOW CHOIR

Credits: 10
CSF III

Grade: 10 - 12
UC/CSU: F

This is a specialized performing group emphasizing good vocal production and performance skills. Students perform standard, contemporary jazz, show tunes, and pop music. Emphasis is placed on proper vocal techniques, performance skills, and choreography/dance. Extra time outside of school is required.

Prerequisite: Audition and teacher signature required

CONCERT CHOIR

Credits: 10
CSF III

Grade: 9 – 12
UC/CSU: F

This course is designed for beginners to rehearse and perform classical, chamber, and contemporary pop literature. Emphasis is placed on developing proper vocal techniques and performance skills. Extra time is required outside of class for rehearsal and performance.

Prerequisite:

DRUMLINE (Percussion Ensemble)

Credits: 10
CSF III

Grade: 9 – 12
UC/CSU: F

Students in this course learn techniques and perform percussion ensemble music both as part of the larger OHS Marching Band and concert band, and as part of a unique Percussion Ensemble. In addition to performing on a wide variety of percussion instruments, the students will learn the theory and history of the music performed. Performances and extra-curricular practices are scheduled as needed by the band director. Students will combine and apply movement patterns to music, simple to complex both as individuals and in groups. The physical self-awareness of biomechanics is learned throughout the year. Forty-two hours of physical activity in the form of marching calisthenics and drills are incorporated into the musical performance throughout the fall semester. The course may be repeated for additional credit. This course may be offered in the same section as other band courses. For freshmen through seniors, fall semester will go toward PE credits (until the PE req. has been met) and spring semester credits will go toward VAPA.

Prerequisite: Teacher approval is needed.

JAZZ BAND

Credits: 10
CSF III

Grade: 9– 12
UC/CSU: F

This class is designed for students to learn about and play jazz, swing, and pop music, both past and current. Emphasis is on performing skills and improvisation. Additional time outside of class is required.

Prerequisite:

BAND, MARCHING / SYMPHONIC

Credits: 10
CSF III

Grade: 9 - 12
UC/CSU: F

These courses are designed for students to rehearse and perform quality musical literature for concert and marching performance. Emphasis is placed on developing correct playing and performance techniques as well as basic music theory. Much extra time outside of school is required. Students will combine and apply movement patterns to music, simple to complex both as individuals and in groups. The physical self-awareness of biomechanics is learned throughout the year. Forty-two hours of physical activity in the form of marching calisthenics and drills are incorporated into the musical performance throughout the fall semester. Students must enroll in both semesters unless transferring to OHS midyear from another school. For freshmen through seniors, students will earn one year of PE credits.

Prerequisite: Previous experience in band is needed.

STEEL BAND

Credits: 10
CSF III

Grade: 9– 12
UC/CSU: F

Career and Technical Education

The California Career Technical Education (CCTE) model curriculum standards are organized in 15 industry sectors, or groupings, of interrelated occupations and broad industries. Each sector has two or more career pathways. A career pathway is a coherent sequence of rigorous academic and technical courses that allows students to apply academics and develop technical skills in a curricular area. Career pathways prepare students for successful completion of state academic and technical standards and more advanced postsecondary course work related to the career in which they are interested.

CAREER AND TECHNICAL EDUCATION

Unless otherwise noted, all courses in this section fulfill one year of elective credit or high school Visual and Performing art requirement for each class period taken.

Transportation Sector

The OHS Auto Technology program is particularly strong because it is based on experience from the real life world of auto dealerships and is designed into a comprehensive three-part program: Auto I, Auto II, and Auto III. Auto I focuses mostly on the theory of internal combustion engines, their operation and adjacent components. Although this course relies on the use of a Chrome Books with internet based textbook, later in the year students go into the shop to become acquainted with hand tools and safety procedures. Auto II moves students into repair and diagnosis of components. Students do more shop work than book work. Students taking Auto for only one or two years will come away with an understanding of automobiles, their maintenance and can do simple work themselves. Taking a car to a repair shop, students will be knowledgeable about what is involved. When asking for something, students will know what they are asking for and will be sure to get it. Auto III is a two-period class organized like a regular shop with students writing work orders, learning timetables for each job and learning about cost. Students do actual repairs for their own cars and others. Students taking the whole program (Auto I through III) will be prepared to get an entry level position in an auto repair facility or will be ready for a junior college or technical school program.

The National Institute for Automotive Service Excellence (ASE)

The National Institute for Automotive Service Excellence (ASE) Entry-Level certification tests are designed to indicate a satisfactory level of practical knowledge-based readiness for the workforce in candidates seeking a career in the automotive service industry. ASE Entry-Level certification tests are available for the Automobile, Collision Repair/Refinish and M/H Truck segments (series). ASE Entry-level certification is the first step in building career credentials as an automotive service professional.

All seniors and Auto Technology III students have the opportunity to take and pass the ASE Entry-level Certification. ASE is a nationally recognized Credential

AUTO TECHNOLOGY I BASIC THEORY (Introduction)

Credits: 10
CSF III

Grade: 9 - 12
UC/CSU:

This is a basic course to teach the workings of the automotive four-cycle American engine, automotive history, safety, hand tools, and information about careers. Shop experience includes driver information, task work, as well as some entry-level job skills. Safety tests and work clothes (coveralls preferred) are required. This is an excellent course for all drivers of automobiles. Students should have an interest in operation of automobile engines.

Prerequisite: Interest in operation of automobile engines.

AUTO TECHNOLOGY II DIAGNOSIS & SERVICE (Concentrator)

Credits: 10
CSF III

Grade: 10 - 12
UC/CSU:

The emphasis of this course is on diagnosis and factory recommended repair and service of the American engine and drive trains. There will be class work as well as shop work. The majority of class time will be spent in shop. Safety tests and work clothes are required.

Prerequisite: "C" in Auto Tech I, teacher signature required.

AUTO TECHNOLOGY III (Capstone)

MJC articulated course with AUTECH 311 – Basic Automotive Systems with Oakdale High School and Modesto Junior College. The articulation will be valid through summer 2023.

Credits: 20
CSF III

Grade: 11 - 12
UC/CSU:

This is a two-period class and functions as a live shop experience and is recommended for the career-minded student as well as the home enthusiast. Opportunities are provided for students to practice skills learned in Auto I and II, but the emphasis in this class is on perfection of entry-level job skills and knowledge of more complex procedures. Job orders and time clocks are used, and competency testing is a part of this course. Coveralls are required as well as participation in the Occupational Olympics. This class may be repeated for credit. All seniors and Auto Technology III students have the opportunity to take and pass the ASE Entry-level Certification. ASE is a nationally recognized Credential

Prerequisite: "C" in Auto Tech II, teacher signature required.

FINE WOOD WORKING I (Introduction)

Credits: 10
CSF III

Grade: 9 - 11
UC/CSU: F

This is a basic introductory course to woodworking using all power tools. Seven specific projects are required (such as building a shelf, cutting board, & decorative box). The course covers safe use of power tools and gluing and finishing of projects. During the second semester, students will be allowed to create their own projects upon completion of required projects. They can also personalize projects with a high-tech wood engraver.

Prerequisite: Interest in woodworking.

ADVANCED FINE WOOD WORKING (Capstone)

Credits: 10
CSF III

Grade: 10 - 12
UC/CSU:

Second year class students will have two advanced required projects (such as building an end table and building something larger within a group project). Upon completion of the required projects, students will be allowed to work on their own independent projects. Students will be working more independently with all power tools. They will also learn how to use the wood engraver.

Prerequisite: "C" in Fine Wood I, teacher signature required.

ENGINEERING AND ARCHITECTURE SECTOR

Drafting classes help to prepare students for careers as engineers, drafts persons, architects, interior and landscape designers, etc. Students wishing to explore these careers and many others would benefit from taking drafting. Drafting students complete individual projects as they develop skills. Some of the practical skills taught in drafting find their way into other classes. With more teachers asking students to make presentations that include graphics, skills learned in drafting can be readily applied.

The drafting curriculum is both philosophical and practical. Philosophically, drafting teaches students to think and learn in different ways. Drafting students learn to visualize and work in a graphic language. Drafting also aims at the practical. Skills learned in drafting may be valuable when students own and remodel their own homes or enter careers that use drafting or graphics.

The first-year curriculum emphasizes technical drawing, exploring the shapes of objects, and learning to make two-dimensional drawings. Shapes progress to the third dimension, and in later classes students explore architecture. Advanced students move on to more complicated problems and develop full sets of plans that are good enough to be submitted for building permits. Advanced students use AutoCAD and Auto Desk after becoming proficient with the traditional drafting tools.

MECHANICAL DRAFTING TECHNOLOGY /ARCHITECTURE I (Introduction)

Credits: 10

Grade: 9 – 12

CSF III

UC/CSU:

The first semester students learn to describe the shape and size of objects by drawing to scale. Basic drafting practices and the use and care of instruments are stressed. Students get to learn and read blueprints as well as the pictorial representation of drawings.

Prerequisite: Students should have an interest in Mechanical Drafting.

MECHANICAL DRAFTING TECHNOLOGY II (Capstone)

Credits: 10

Grade: 10 – 12

CSF III

UC/CSU:

Students review the basic areas of mechanical drawing. Auxiliary views, mechanical constructions, fasteners, use of tables, handbooks, etc. are used to further develop mastery of detailed drawings. Students are challenged to use a variety of skills, and learn to be resourceful and take the initiative in proceeding with their work. Students are allowed to take advanced mechanical drafting for up to three years.

Prerequisite: “C” in Mechanical Drafting I, teacher signature required.

ARCHITECTURAL DESIGN II (Capstone)

Credits: 10

Grade: 10 – 12

CSF III

UC/CSU: F

This is a specialized course designed to improve students’ ability in pictorial representation of architectural and artistic drawings and sketches. An emphasis is placed on the history of art, architecture, and design. Students are shown how art and architecture have been tied together throughout history and still are in today’s world. This course meets the OHS graduation and the CSU/UC eligibility requirement for visual/performing art.

Prerequisite: Architectural Design I and teacher signature required.

CTE - COMPUTER AIDED DRAFTING

Credits: 10
CSF III

Grade: 11 – 12
UC/CSU:

This is an instructional program designed to prepare students to use computer technology to plan, prepare, and interpret mechanical, architectural, structural, and other sketches. Students will use reproduction materials, equipment and processes and will develop, plan, and process charts and drawings. Students also have the opportunity to experience and create video game design programs with Unity and Games Factory 2, along with 3-D printing with MakerBox and CubePro Duo technology. Meets graduation requirement for visual/performing art.
Prerequisite: “C” in Mechanical Drafting I, teacher signature required.

CTE - CULINARY ARTS I

Credits: 10
CSF III

Grade: 11-12
UC/CSU:

This course prepares students for entry-level occupations as assistant cooks, bakers, salad makers, cafeteria workers, food servers, cashiers, and/or institutional dish-up persons. A major emphasis is on service and care and maintenance of equipment, commercial kitchen safety and sanitation, as well as knife skills. Plus, all students receive their ServSafe Food Handlers certification which is required by law to work in the food industry. Meets graduation requirement for visual/performing art.
Prerequisite:

STUDENT SERVICES

TEACHER'S AIDE

Credits: 10

Grade: 11-12

BUSINESS OFFICE AIDE

UC/CSU:

ATTENDANCE OFFICE AIDE

COUNSELING OFFICE AIDE

LIBRARY AIDE

VICE PRINCIPAL'S OFFICE AIDE

MAIN OFFICE AIDE

Teachers can use help setting up equipment, organizing, filing, photocopying, etc. Office aides assist school personnel in the daily functioning of the offices. Aides must be exceptionally responsible and punctual. Students dismissed from an aide position for misconduct, poor performance, or bad attendance may receive a WF grade.

Prerequisite: Junior or senior status, good attendance and discipline record, and teacher or office supervisor signature required. **Students must be academically eligible (2.0 or higher GPA and no more than one “F” or Unsatisfactory citizenship mark on second semester grades) unless otherwise noted in I.E.P. Students are able to aide for one period during the school day.**

ELEMENTARY SCHOOL HELPERS

Credits: 20

Grade: 11 - 12
UC/CSU:

For students who enjoy working with younger kids and considering becoming a teacher, this course allows the student to work at one of the Oakdale elementary schools. Students will be assigned to a teacher and help with hundreds of things elementary teachers do every day. Students must provide their own transportation. This class may be retaken for credit and is taken for a two-period block.

Prerequisite: Minimum GPA of 3.0 and no more than 10 absences during the previous academic year. Administrator or Counselor signature required.

COMPUTER LAB TUTOR I & II

Credits: 10

Grade: 11 – 12
UC/CSU:

Enjoy helping other students? Like computers and computer software then being a computer tutor is for you! Tutors support and encourage students in learning word processing, business knowledge, spreadsheets, programming, graphics, and presentation software. Additionally, tutors provide help organizing, filing, and correcting student work.

Prerequisite: Signature of instructor.

MATH TUTOR

Credits: 10

Grade: 11 – 12
UC/CSU:

For students who excel in math and enjoy working with their peers, this course requires daily interaction between the tutor and 9th grade students enrolled in an Algebra support class. The role of peer tutors is to circulate throughout the room, help monitor individual understanding, and offer assistance where needed—their purpose is not secretarial in nature. This course counts for elective credit.

Prerequisite: Junior or senior status, good attendance and discipline record. Math teacher signature required. “B” or better in Math II both semesters.

CTE - HOSPITAL HEALTH SERVICES OCCUPATIONS (CONCENTRATOR/CAPSTONE)

Credits: 20
CSF III

Grade: 11 - 12
UC/CSU:

1. Must have interest in a career in the medical field.
2. Must be physically and emotionally able to carry out the duties of the area(s) in which assigned.
3. Must have or develop good attendance, have a physical exam and TB skin test before entering hospital areas, and be willing to comply with rules governing hospital employees.
4. Provide own transportation.
5. Must have a district-provided car permit or walking permit.
6. Counselor recommendation.
7. Must purchase a uniform.
8. Flu Shot is required.
9. Hepatitis B immunizations are necessary for safety in areas where exposure to blood or body fluids is possible.

Approximately the first 9 weeks of this two-period program held at Oakdale High School are spent with core curriculum such as anatomy and physiology, medical terminology, HIPAA legal and ethical concerns, infection control, vital signs, CPR and computer skills required to work as a health care assistant. The remainder of the course is spent learning aide/assistant skills in one or more of the following areas: Radiology, physical therapy, nutrition, communication skills, emergency services, pharmacy, optometry, laboratory, equine/veterinary dietary medicine, dental, etc.

Prerequisite: Must have written permission of the instructor.

MEDICAL TERMINOLOGY

Credits: 10

Grade: 9 - 12
UC/CSU: G

The introduction of the Medical Terminology course is designed to introduce students to a new language of medical terminology. Students will gain an understanding of basic elements, rules of building and analyzing medical words, and medical terms associated with the body as a whole. Utilizing a systems-approach, the student will define, interpret, and pronounce medical terms relating to the structure and function, pathology, diagnosis, clinical procedures, and pharmacology. Upon successful completion of the course, students will be able to comprehend a medical record report, communicate with medical professionals and have a high-level overview of medical terms.

Major Units of Study: Basic Word Structure, Suffixes and Prefixes, Medical Specialists and Case Reports, Body Systems and Diagnostic Tests and Procedures

CTE - AP COMPUTER SCIENCE PRINCIPLES

Credits: 10
UC/CSU: D

Grade: 10– 12
NCAA

Computer Science Principles offers a multidisciplinary approach to teaching the underlying principles of computation. The course will introduce students to the creative aspects of programming, abstractions, algorithms, large data sets, the Internet, cybersecurity concerns, and computing impacts. Computer Science Principles will give students the opportunity to use technology to address real-world problems and build relevant solutions. Together, these aspects of the course make up a rigorous and rich curriculum that aims to broaden participation in computer science. Participation in student leadership activities will be a required element of this course including participation in Occupational Olympics.

Prerequisite: Successful completion of Computer Science Discoveries.

CTE - AP COMPUTER SCIENCE A

Credits: 10
CSF III

Grade: 11-12
UC/CSU: C

AP Computer Science A introduces students to computer science through programming. Fundamental topics in this course include the design of solutions to problems, the use of data structures to organize large sets of data, the development and implementation of algorithms to process data and discover new information, the analysis of potential solutions, and the ethical and social implications of computing systems. The course emphasizes object-oriented programming and design using the Java programming language.

Recommended for Success: completion of AP Comp Sci Principles and/or concurrent enrollment in Math III.

CTE - CS WEB DESIGN

2 + 2

Credits: 10
CSF III

Grade: 10-12
UC/CSU: G

CS Web Design is an introductory project-based course that builds career and key digital communication skills in the context of the professional web design and development process. Students will learn web page design and beginning programming with the coding languages HTML, CSS, and JavaScript. Students will develop a basic understanding of web and graphic design principles and the user/software/hardware interface, as well as understanding the logical process of computer problem solving. Understanding, critical thinking, and problem solving skills related to programming will be developed as students get an introduction to the fields of web development, graphic design and computer science.

Students will learn web page design (Adobe Dreamweaver), photo editing (Adobe Photoshop), and illustration design (Adobe Illustrator), to create projects that will be published in printed and digital formats. These various projects include web pages, posters, tickets, programs, trailblazer cover, and t-shirt designs. Students enter artwork into contests throughout the school year. Participation in student leadership activities will be a required element of this course, including participation in Occupational Olympics. By the end of this course, students will have an opportunity to earn the following industry-recognized Adobe Certified Professional certifications: Web Authoring using Adobe Dreamweaver, Visual Communication using Adobe Photoshop, Graphic Design and Illustration using Adobe Illustrator.

Prerequisite: Successful completion of Computer Science Discoveries, or other introductory computer course.

STUDENT GOVERNMENT LEADERSHIP

Credits: 10
CSF III

Grade: 10 – 12
UC/CSU: G

This class is only for elected student body and class officers, and students will be assigned to this class after student body elections. Students must be leaders, want to develop leadership skills and be willing to work hard to improve the school. Students will help plan and carry out student activities at OHS.

Prerequisite: Teacher signature required. Must be a student body officer. Minimum 2.5 GPA required.

WORK EXPERIENCE

Credits: 10
CSF III

Grade: 11 – 12
UC/CSU:

Welcome to the world of work. For students under age 18, a Work Permit is required and can be obtained from the Work Experience teacher. Signing up for Work Experience class allows a student to work up to 40 paid hours per week and receive 5 or 10 elective credits per semester. Students must attend a 50-minute class once every week and complete work-related assignments outside of class. The class and related assignments help students to understand rules and regulations dealing with work, paychecks, taxes and how to obtain and hold a job. It is the student's responsibility to find a job. This job must be a legal, supervised job that provides a pay stub and Workman's Compensation Insurance. This course does not fulfill the high school graduation requirement for Visual and Performing Arts.

Prerequisite: Junior or Senior status and must be academically eligible. Signature required from Work Exp Teacher.

COMPUTER SCIENCE DISCOVERIES

Credits: 5
CSF III

Grade: 9-12
UC/CSU:

Computer Science Discoveries (CS Discoveries) is an introductory computer science course that empowers students to create authentic artifacts and engage with computer science as a medium for creativity, communication, problem solving, and fun.

Prerequisite:

COLLEGE AND CAREER ACCESS PATHWAY (AB 288)

Credits: 5 credits/ **College Units:** varies .5-3

Grade: 11 – 12

UC/CSU: CSU transferrable

CCAP college courses held on the high school campus open only to Oakdale High School students. These courses are designed for students who wish to pursue higher education while completing their high school graduation requirements. They are designed to assist students in securing a job or advance in a demand industry or occupation. Juniors and seniors can be admitted into the program through an application process.

FIRE 1 - Fire Protection Organization

Introduction to fire protection; career opportunities in fire protection and related fields; philosophy and history of fire protection; fire loss analysis; fire department as part of local government; laws and regulations affecting the fire service; fire service nomenclature; specific fire protection functions; basic fire chemistry and physics; introduction to fire protection systems; introduction to fire strategy and tactics. Not repeatable. Transfer: (CSU)

EMS 157 - Emergency Medical Responder & CPR

An entry-level course designed for firefighters and other emergency workers who will respond to medical emergencies ahead of ambulance transportation. Focuses on stabilization of ill or injured patients prior to arrival of more advanced life support. This course meets the basic requirements for most volunteer fire agencies as well as some paid fire departments. Not repeatable. MJC equivalent: (EMS 350)

GUIDE 8 - Introduction to College

Explore the resources and tools needed to take charge of your educational experience and maximize your academic success. Identify successful college behaviors, Columbia College support resources, general expectations of college culture, and college pathway options. Students will gain an understanding of educational planning and transfer processes and, according to their needs and goals, each student may complete an educational plan with a counselor individually, in a group, or online. Not repeatable. MJC equivalent: (GUIDE 110) Transfer: (CSU)

GUIDE 11 - Occupational Exploration

An introduction to occupational exploration and career choice. Emphasis will be on linking personal information (interests, values and abilities) obtained through career assessment with information about occupations, researched by using Career Center and online resources. Career choices will be clarified and corresponding and appropriate educational goals will be selected. Students will receive instruction in goal setting, decision making, and problem solving as they relate to the development and fulfillment of educational and career plans.

Not repeatable. MJC equivalent: (GUIDE 111) Transfer: (CSU)
